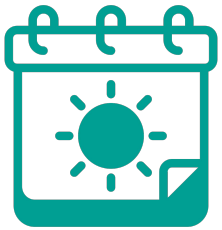
- Reading Camp Solution
- Creating Groups
- Reading Camp Data

Reading Camp Solution

mCLASS Summer Benchmark



Amplify is excited to announce an update to the assessment process for Reading Camp for the 22-23 school year. A **Summer benchmark window** will be available in the assessment system for the dates selected on your Reading Camp Survey. We will not be using Progress Monitoring this year.

The pre-assessment for Reading Camp will be the student mCLASS EOY Composite score.

The post-assessment for Reading Camp will be Summer Benchmark in mCLASS. The Summer Benchmark window is accessed the same way BOY, MOY, and EOY are, under mCLASS Assessment on the teacher device.

Reading Camp Assessment

- Grade level EOY forms are used during the Summer window
- Both DIBELS 8 Benchmark and Progress Monitoring measures are available to administer during the Summer window
- Once all DIBELS 8 measures are completed in the Summer window, a Composite score appears on teacher's device
- Composite score calculation is the same that is used during EOY
- Summer benchmark goals are the same as EOY benchmark goals

Enrollment: Grouping for Reading Camp

- A Reading Camp **Group** for each grade level **or** for each class will be created at the school level:
  - Reading Camp Grade 1 A
  - Reading Camp Grade 1 B (if necessary)
  - Reading Camp Grade 2 Teacher Name

- Groups **must not exceed 75 students**

Creating Groups

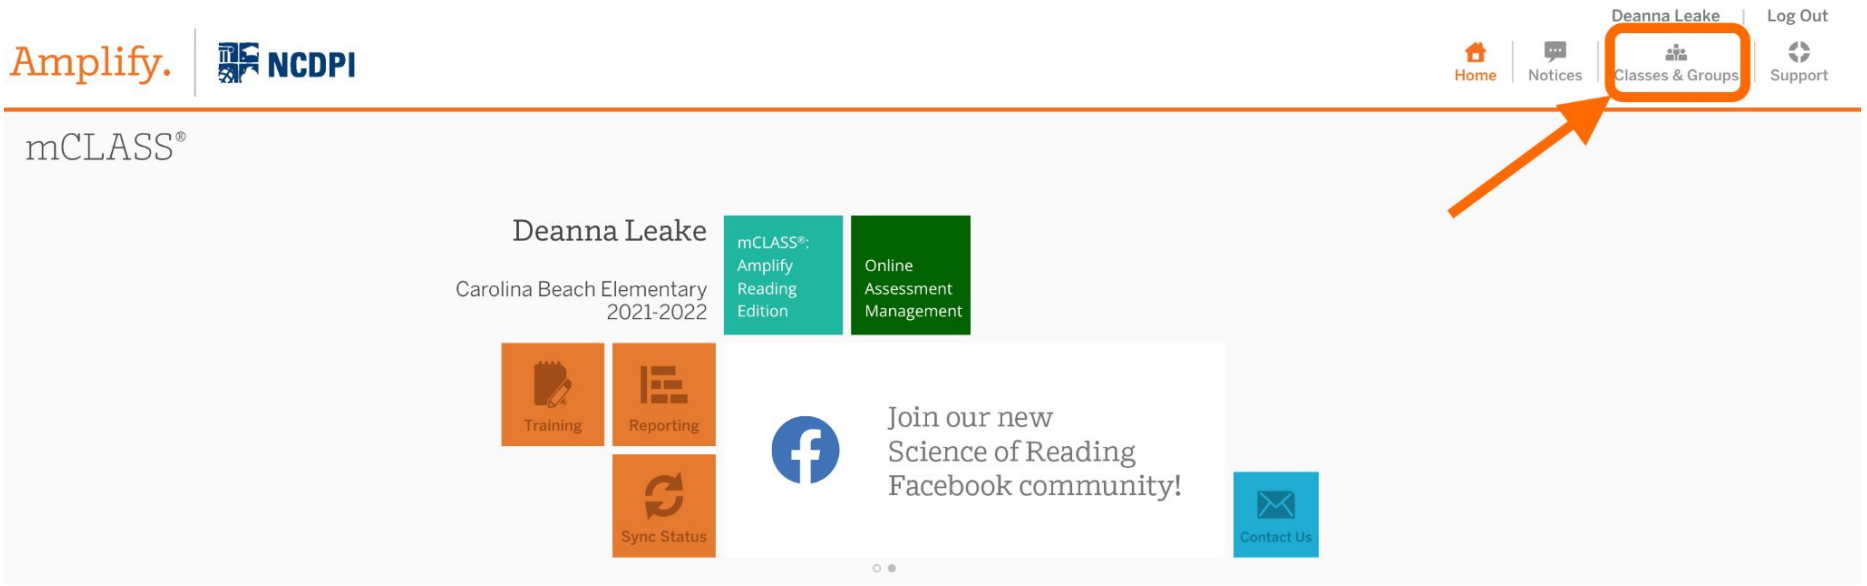
Creating School Level Groups

Reading Camp School-level coordinators should have either **Specialist or Admin access** to mCLASS.

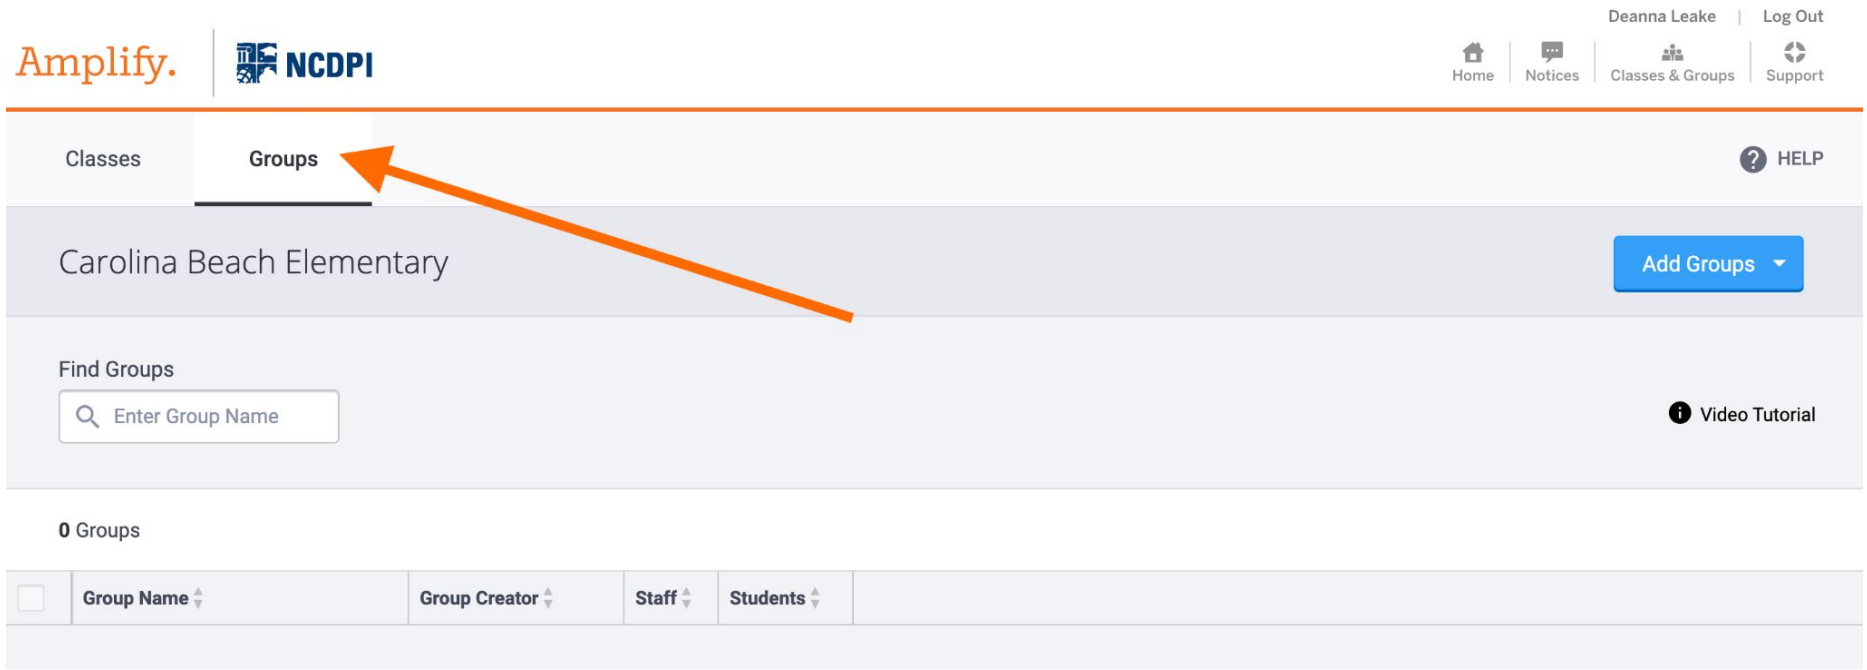
Teachers, Admin, and Specialists are all able to create groups in mCLASS.

It is a district/school decision on whether the **Reading Camp coordinators** create groups for their site, or the **Reading Camp Teachers** create their own group

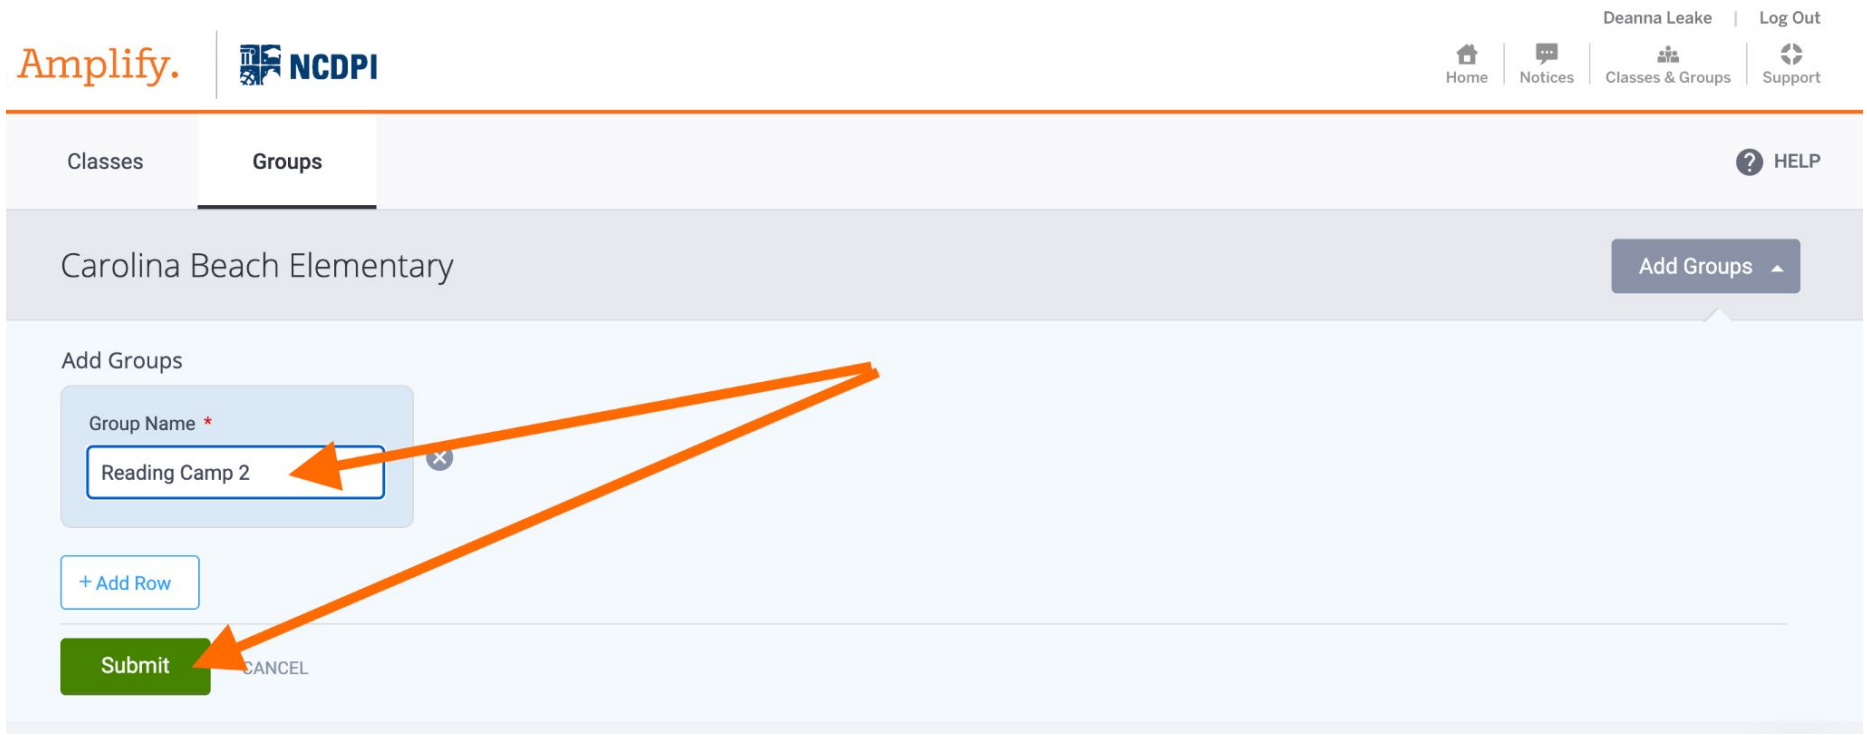
Creating School Level Groups



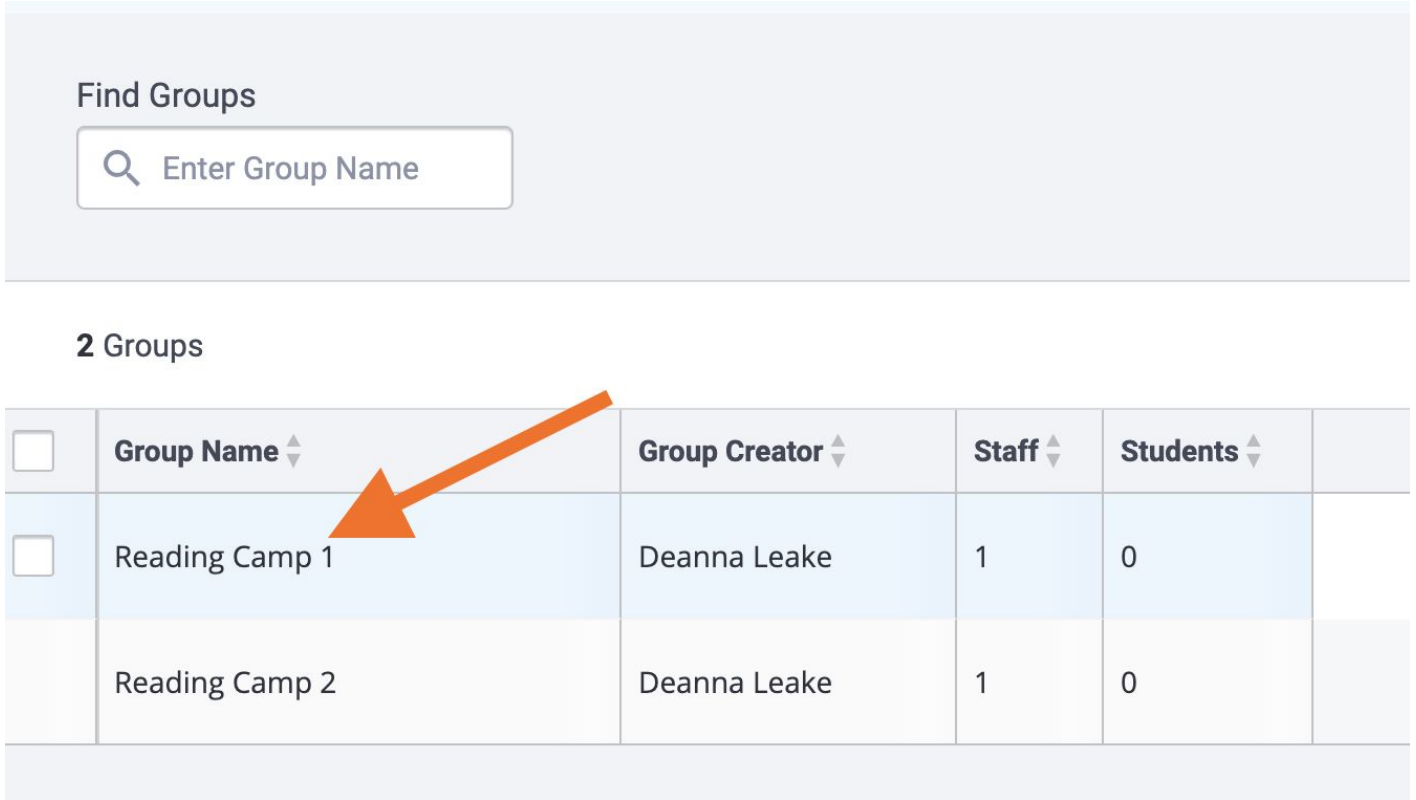
Creating School Level Groups



Creating School Level Groups: Naming Group

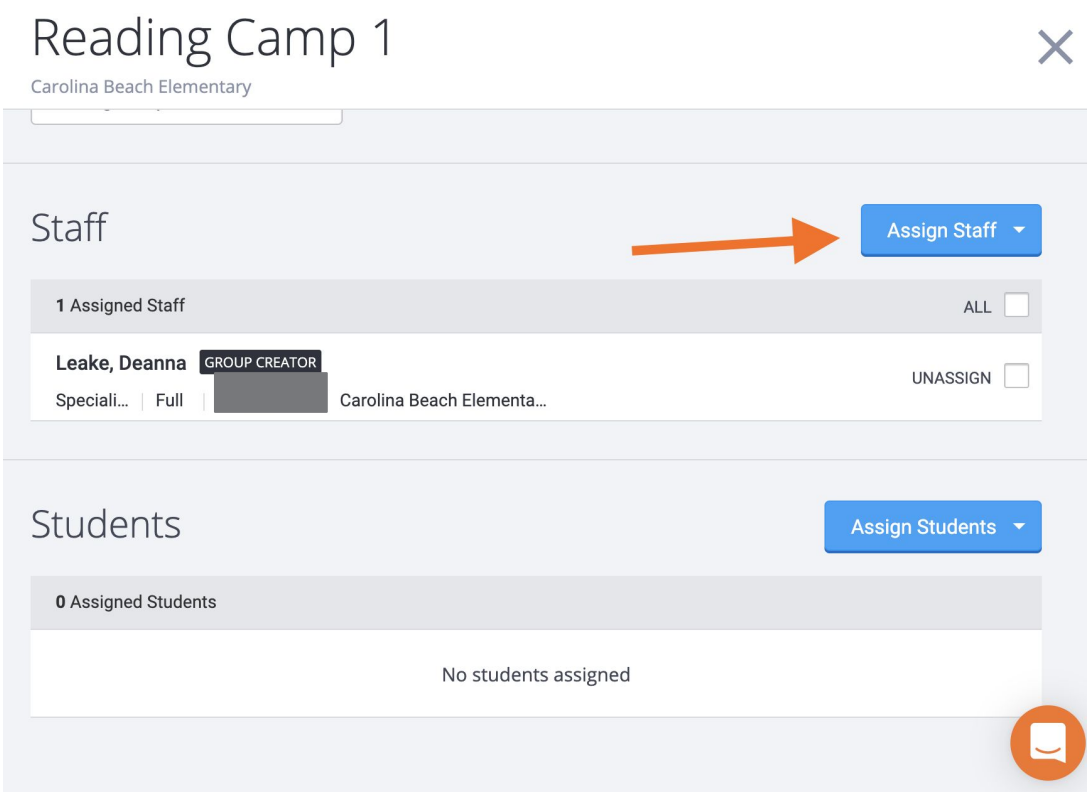


Creating School Level Groups: Adding Students and Staff

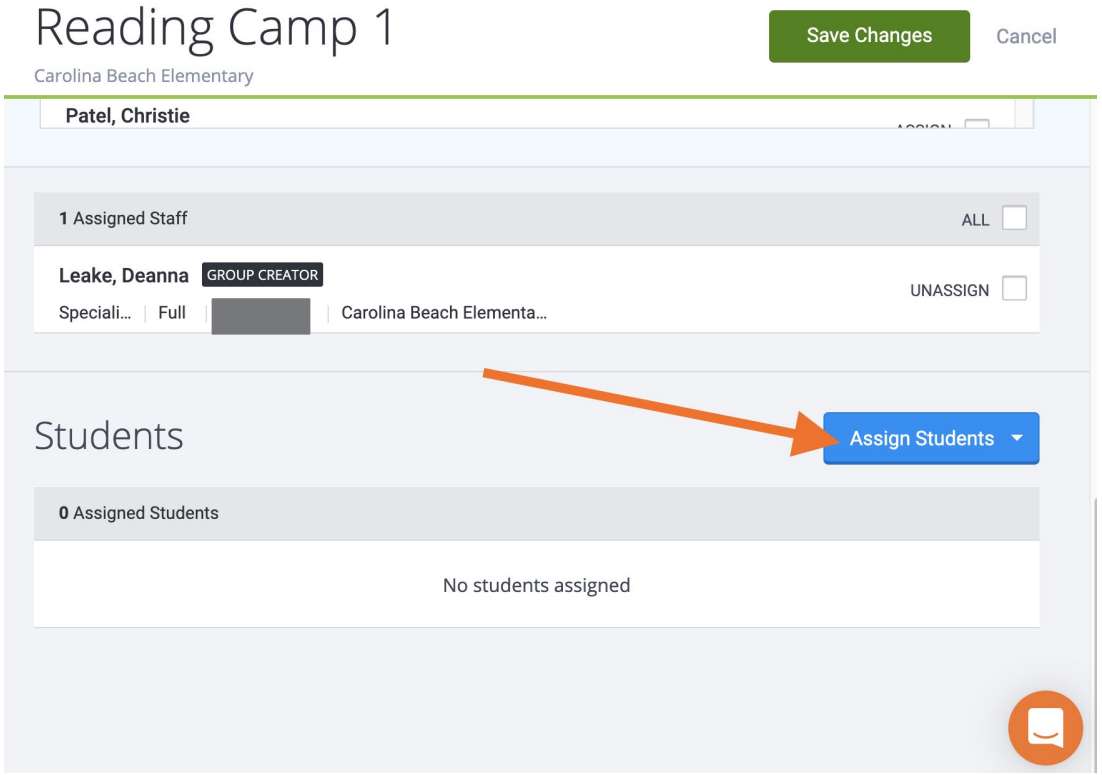


Creating School Level Groups: Assigning Staff

Assign any staff members to the group who will need access to assess **or** view data.

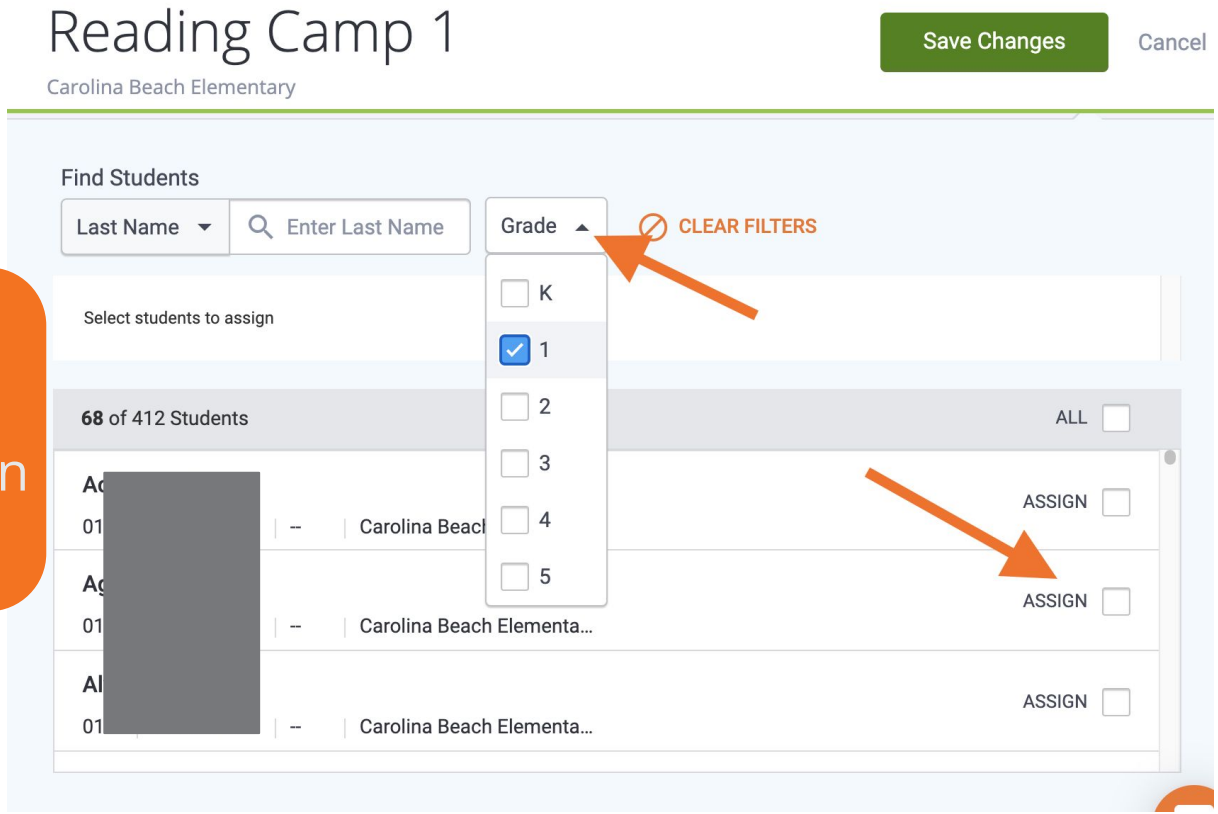


Creating School Level Groups: Assigning Students

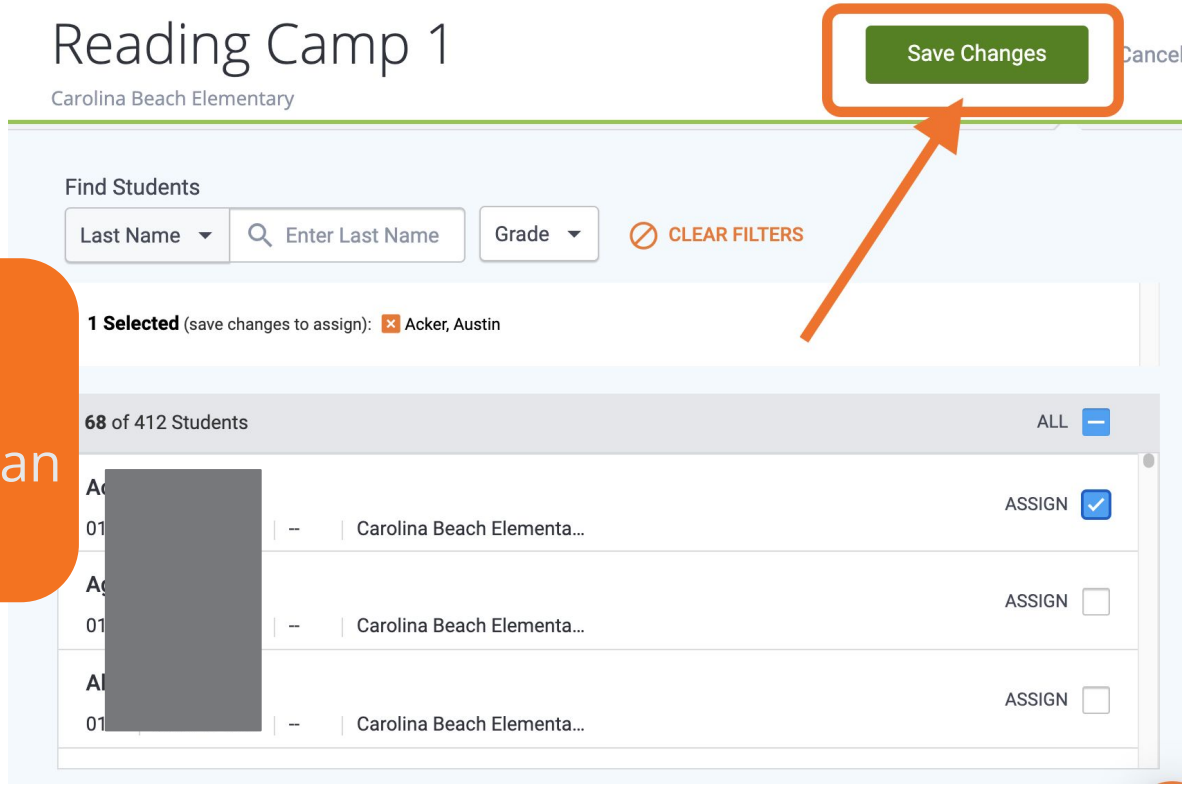


Creating School Level Groups: Assigning Students

Please note, groups cannot exceed more than 75 students.



Creating School Level Groups: Save



Please note, groups cannot exceed more than 75 students.

Creating School Level Groups: Repeat

Repeat these steps to create all necessary Reading Camp groups.

Please remember to add any staff member that will need to assess or view student data to the group.

Groups must not exceed 75 students.

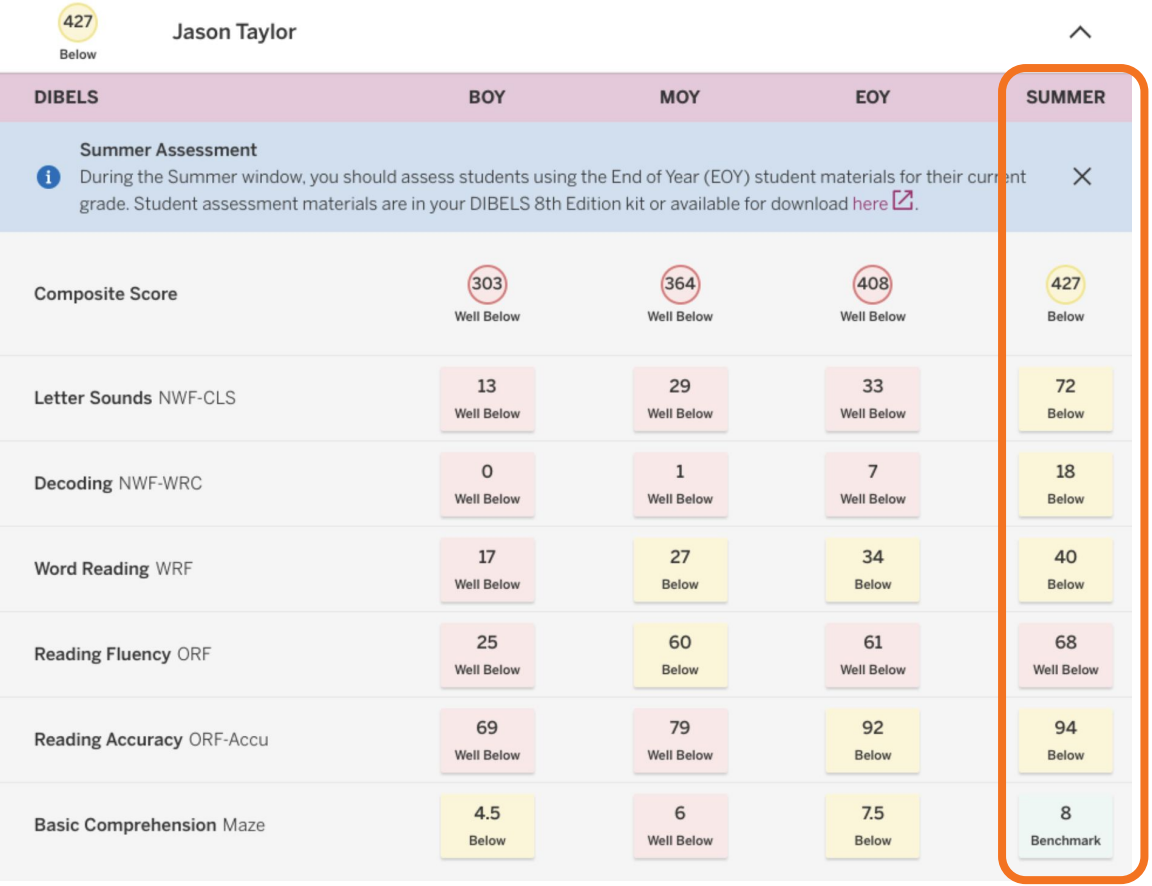
mCLASS Assessment: Scoring



427 Below — Jason Taylor

Summer Assessment
During the Summer window, you should assess students using the End of Year (EOY) student materials for their current grade. Student assessment materials are in your DIBELS 8th Edition kit or available for download here.

DIBELS	BOY	MOY	EOY	SUMMER
Composite Score	303 Well Below	364 Well Below	408 Well Below	427 Below
Letter Sounds NWF-CLS	13 Well Below	29 Well Below	33 Well Below	72 Below
Decoding NWF-WRC	0 Well Below	1 Well Below	7 Well Below	18 Below
Word Reading WRF	17 Well Below	27 Below	34 Below	40 Below
Reading Fluency ORF	25 Well Below	60 Below	61 Well Below	68 Well Below
Reading Accuracy ORF-Accu	69 Well Below	79 Well Below	92 Below	94 Below
Basic Comprehension Maze	4.5 Below	6 Well Below	7.5 Below	8 Benchmark

Once all D8 measures are completed in the Summer window, a Composite score appears on teacher's device.

Cut-points in Summer BM period are the same as in EOY

Composite score calculation is the same one that's used during EOY

Amplify will send official results to DPI; DPI will then send to districts for review.

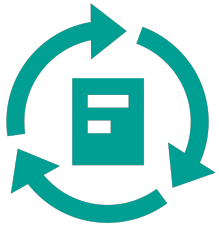
Reading Camp: Data Reporting



- Custom data reporting post-Reading Camp by Amplify
  - Reports will be sent to NCDPI
    - This is not an immediate data transfer
  - NCDPI will distribute to districts

- mCLASS Reporting:
  - Student data will only be available in the teacher view on the assessment side of mCLASS for summer 22-23.
