

All Amplify Science California lessons were designed with device sharing in mind, and never assume that every student has a separate device. While 1:1 scenarios are great, they are not required. As an alternative, share devices across pairs or small groups, or simply display the Modeling Tool to the whole class and allow students to “drive” using your device.

Day 1	Day 2	Day 3	Day 4	Day 5
				 Lesson 2.1 Modeling Activity
Day 6	Day 7	Day 8	Day 9	Day 10
Day 11	Day 12	Day 13	Day 14	Day 15
		 Lesson 3.4 Modeling Activity		
Day 16	Day 17	Day 18	Day 19	Day 20
	 Lesson 4.4 Modeling Activity			
Day 21	Day 22			
 Lesson 5.4 Modeling Activity				

All Amplify Science California lessons were designed with device sharing in mind, and never assume that every student has a separate device. While 1:1 scenarios are great, they are not required. As an alternative, share devices across pairs or small groups, or simply display the Modeling Tool to the whole class and allow students to “drive” using your device.
