Do Now: Login and open your digital participant materials

1. Go to **learning.amplify.com**
2. Select **Log in with Amplify**
3. Enter teacher demo account credentials
 - **xxxxxxxxx@pd.tryamplify.net**
 - **Password: xxxx**
4. Explore as we wait to begin

Welcome to Amplify Science!

This site contains supporting resources designed for the Los Angeles Unified School District Amplify Science adoption for grades TK–8.

All LAUSD schools have access to Amplify Science resources at this time.

Click here for [Remote Learning Resources for Amplify Science](#)

[Click here](#) to go back to the LAUSD homepage.

Click the button below to preview the digital Teacher's Guide, and check back for exciting updates to this site!

<https://amplify.com/lausd-science/>

Use two windows for today's webinar

The diagram illustrates the setup for a two-window webinar. An inset box shows a close-up of the window control buttons (red, yellow, green) with an arrow pointing to the green button, indicating how to maximize or click through to the next window. Two windows are shown side-by-side:

- Window #1:** A Google Meet window titled "Meet - Etiwanda Grade 7 N". The URL is `meet.google.com/hcs-dxpk-wrm?aut...`. Below the video area, the Amplify Science curriculum page for "Plate Motion" is visible, showing progress build levels and materials.
- Window #2:** The Amplify Curriculum website at `apps.learning.amplify.com/curriculu...`. It displays "Lesson 1.2: Using Fossils to Understand Earth" with a dinosaur illustration. The navigation bar includes "Lesson Brief (4 Activities)", "1 WARM-UP Warm-Up", "TEACHER Why Geologists Value Fossils", and "2 TEACHER-LED DISCUSSION Introducing Mesos". A sidebar on the right lists "Digital Resources" such as "All Projections", "Completed Scientific Argumentation Wall Diagram", "Video: Meet a Paleontologist", and "The Ancient Mesosaurus".

Third Grade Remote Learning and Guided Planning Session

LAUSD
Date:
Presented by

Remote Professional Learning Norms

Take some time to orient yourself to the platform

- *“Where’s the chat box? What are these squares at the top of my screen?, where’s the mute button?”*

Mute your microphone to reduce background noise unless sharing with the group

The chat box is available for posting questions or responses to during the training

Make sure you have a note-catcher present

Engage at your comfort level - chat, ask questions, discuss, share!

Objectives

By the end of this workshop, you will be able to...

- Select the Amplify Science@Home resources that best fit your instructional context
- Internalize tips and strategies for remote and hybrid instruction using Amplify Science@Home
- Plan how you will leverage Amplify Science@Home resources in a remote setting for back-to-school

e

Plan for the day

- Framing the day
 - Welcome and introductions
 - Reflection and vision setting
 - Revisiting the Amplify Approach
- @Home Resources Introduction
 - @Home Videos
 - @Home Units
 - Resource selection
- Guided Planning
 - Utilizing @Home Resources
- Reflection and closing

Plan for the day

 - Resource selection
- Guided Planning
 - Utilizing @Home Resources
- Reflection and closing

Remote Learning Reflection

1-2-3 Stop and jot: Last year, while teaching remotely...

- What was **one** challenge, problem, or roadblock you or your students experienced?
- What were **two** successes you or your students experienced?
- What are **three** new things you learned or new insights you gained?

Note catcher

Reflection: Teaching remotely last year

One challenge, problem, or roadblock you or your students experienced

Two successes in your teaching

Three things you learned or new insights

Setting a vision

What are you hoping your students get out of science this year?

Cultivate a
love of
science

Problem solve

Develop flexible
scientific
understanding

Think and
work like real
scientists

Feel successful
and build
academic
confidence

Collaborate
and
communicate

Multimodal, phenomenon-based learning

In each Amplify Science unit, students embody the role of a scientist or engineer to **figure out phenomena**.

They gather evidence from multiple sources, using multiple modalities.

Questions?

Plan for the day

- Framing the day
 - Welcome and introductions
 - Reflection and vision setting
 - Revisiting the Amplify Approach
- @Home Resources Introduction
 - @Home Videos
 - @Home Units
 - Resource selection
- Guided Planning
 - Utilizing @Home Resources
- Reflection and closing

Amplify Science@Home

A suite of new resources designed
to make extended remote and
hybrid learning easier for teachers
and students.

Amplify Science @Home resources		
Overview: Amplify Science@Home		
	Amplify Science@Home Videos	Amplify Science@Home Units
Notes from resource overview		
Notes from exploration		
How could this resource help you achieve the video you set for this school year?		

AmplifyScience@Home

- Built for a variety of instructional formats
- Digital and print-based options
- No materials required
- Available in English and Spanish (student and family materials)
- Accessible on the Amplify Science Program Hub

AmplifyScience@Home

Two different options:

@Home Units

- Packet or slide deck versions of Amplify Science units condensed by about 50%

@Home Videos

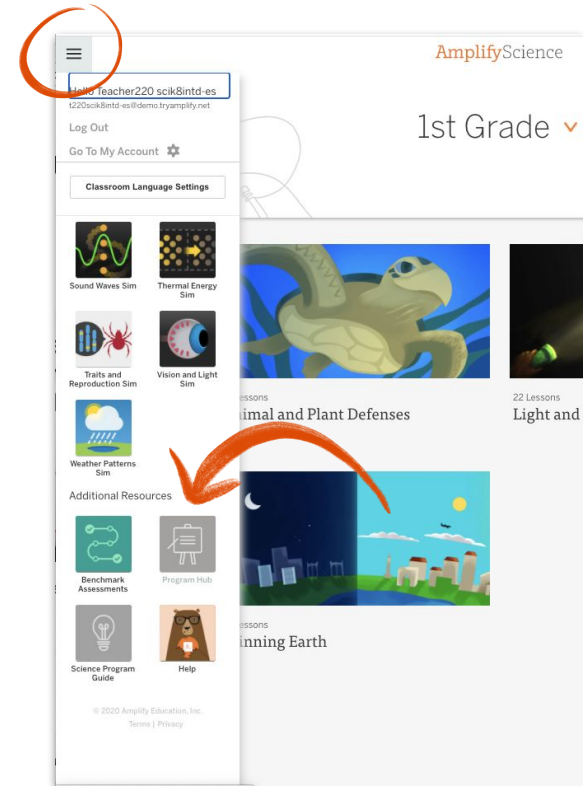

- Video playlists of Amplify Science lessons, taught by real Amplify Science teachers

Accessing Amplify Science@Home

Amplify Science Program Hub

- New site containing Amplify Science@Home and additional PL resources
- Accessible via the Global Navigation menu

AmplifyScience@Home

- First unit for each grade level is now available on the Science Program Hub
- Additional units rolling out throughout back-to-school

Amplify Science K-5

Grade **K**

- Needs of Plants and Animals
- Pushes and Pulls
- Sunlight and Weather

Grade **1**

- Animal and Plant Defenses
- Light and Sound
- Spinning Earth

Grade **2**

- Plant and Animal Relationships
- Properties of Materials
- Changing Landforms

Grade **3**

- Balancing Forces
- Inheritance and Traits
- Environments and Survival
- Weather and Climate

Grade **4**

- Energy Conversions
- Vision and Light
- Earth's Features
- Waves, Energy, and Information

Grade **5**

- Patterns of Earth and Sky
- Modeling Matter
- The Earth System
- Ecosystem Restoration

Stop and Jot

First, ask yourself...

- How much **time** do students have to learn science in the upcoming school year?
- Do your students have **access to technology** at home, or do you need a **print-only solution**?

@Home Videos

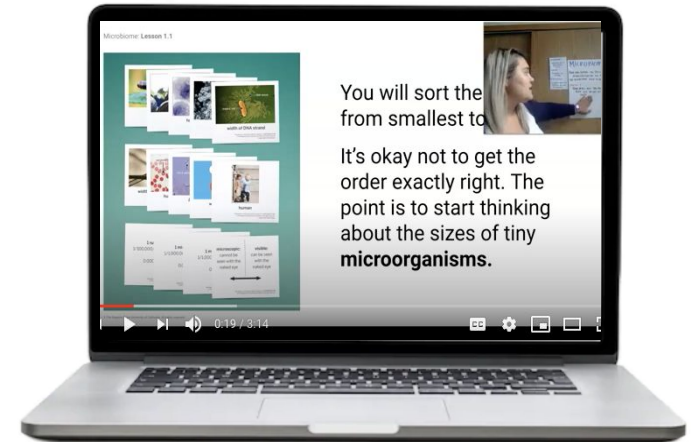

Versions of original Amplify Science lessons adapted for remote learning and recorded by real Amplify Science teachers

Amplify Science @Home resources		
Overview Amplify Science@Home		
	Amplify Science@Home Videos	Amplify Science@Home Units
Notes from remote exploration		
Notes from exploration		
How could this resource help you achieve the video you set for this school year?		

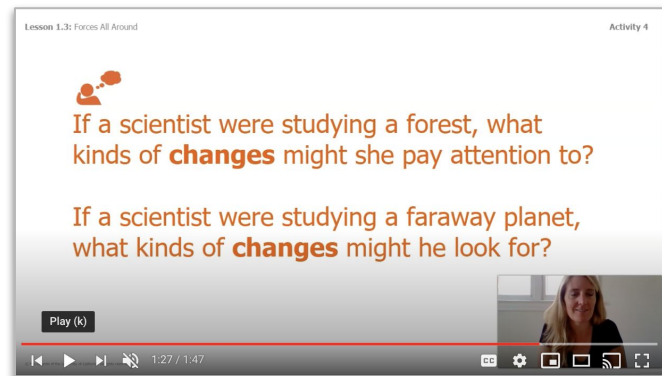

@Home Videos

- Lesson playlists include **all activities** from original units
- Great option if have the **same amount of instructional time** as you typically would for science
- Requires **tech access** at home
- Use videos as **models for making your own lesson videos** or leading **online science class**

Interactive video experience

- Calls to action
 - Think prompts, pause and take notes, stand up and try it, talk to someone
- Stand-alone videos within lesson playlists
 - Read-alouds, digital tool uses, hands-on
- Options to use notebooks and/or materials if available

Example lesson: *Balancing Forces 2.2*

 AmplifyScience > Balancing Forces > Chapter 2 > Lesson 2.2

< Lesson 2.2:
What Objects Do Magnetic
Forces Act On?

@Home Videos

Using the resources

- Assign videos for students to watch during remote, asynchronous time
- Leverage synchronous time for live teaching
 - Lots of time? Teach full lessons
 - Less time? Revisit and preview (see table)

Synchronous time

- Online discussions
- Hands-on investigations (option for teacher demo)
- Sim demonstrations
- Interactive read-alouds
- Shared Writing
- Co-constructed class charts

Log in

1. Go to **learning.amplify.com**
2. Select **Log in with Amplify**
3. Enter teacher demo account credentials
 - xxxxxxxx@pd.tryamplify.net
 - Password: xxxx
4. Explore as we wait to begin

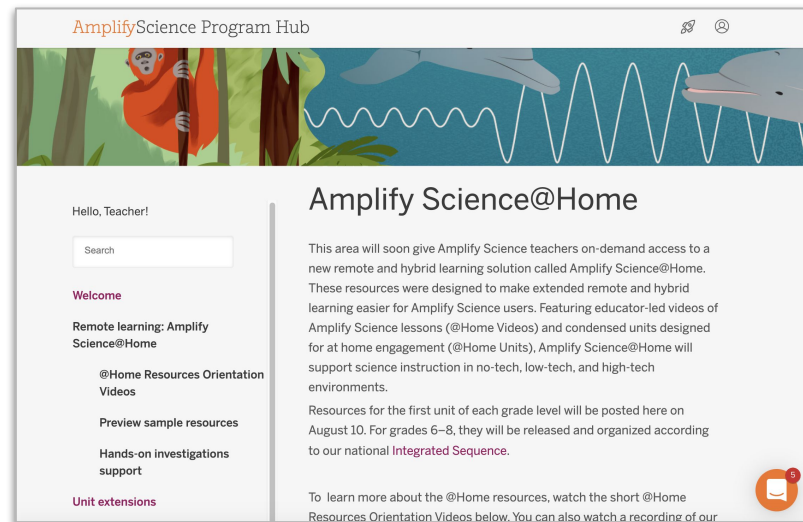

Amplify Science Program Hub

A new hub for Amplify Science resources

Go to: science.amplify.com/programhub

username: [sciencelearningca](#)

password: [DemoOnly1234](#)

Explore your @Home Videos

Navigate to Balancing Forces on the Program Hub and explore a video lesson. You may want to compare the video lesson to the lesson in the Teacher's Guide.

During your work time, consider how this resource can help you reach the vision you set for science this year.

Notes from resource overview		
Notes from exploration		
How could this resource help you achieve the vision you set for this school year?		

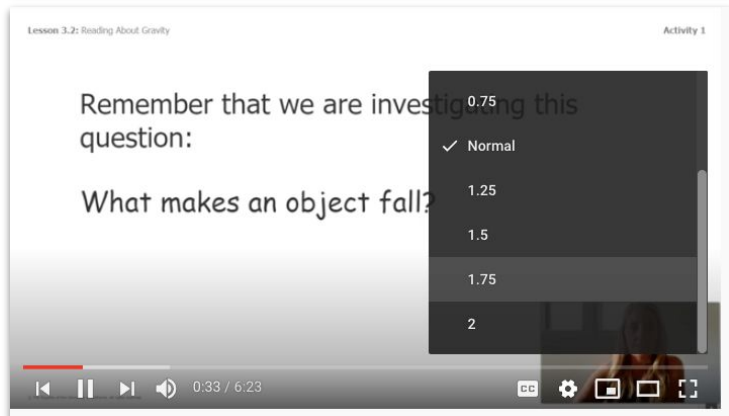

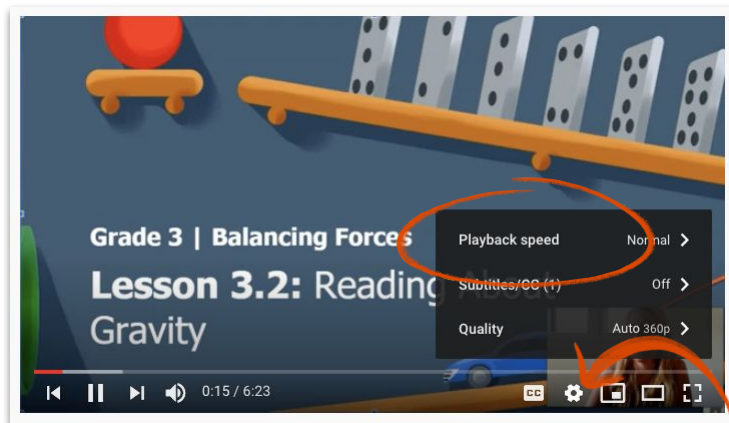

Questions?

Planning suggestions: @Home Videos

The Teacher's Guide is the best planning tool for @Home videos.

- Use the **Lesson Overview Compilation** in the Unit Guide as a pacing and planning tool.
- Refer to the lessons themselves to plan for synchronous instruction.

Try adjusting the playback speed of videos to preview them.

@Home Units

Strategically modified versions of Amplify Science units, highlighting key activities from the program

How could this resource help you achieve the science goals set for this school year?		

@Home Units

- Solution for **reduced instructional time**
- Two options for student access

@Home Packets:
print-based

@Home Slides and Student
Sheets: tech-based

Options for student access

Embedded links to videos:

- Hands-on demonstrations
- Digital tool activities
- Read-alouds

AmplifyScience
Balancing Forces @Home Lesson 3

We've been investigating to find out: **What makes an object start to move?** We will gather more evidence today by reading a book, *Forces All Around*. **Check with your teacher** about how you will access books in this @Home Unit.

 **READ**

As we read the book, we will have a **purpose for reading**. Our purpose is to look for evidence of forces.

For example, in the picture on page 3, we can see a ball bouncing off the desk. Something made the ball start moving, so there must have been a force.

Read the book and **look for evidence of forces**. We can find evidence in words and pictures.

Optional: You can watch a video read-aloud of this book at tinyurl.com/y2x4js6l

 **WRITE**

Balancing Forces: @Home Lesson 3

Read the book and remember to keep our purpose for reading in mind: **look for evidence of forces.**

Optional: You can also watch a video read-aloud of this book at tinyurl.com/y2x4js6l

11

Balancing Forces: @Home Lesson 3	
Page	Date

Options for student access

Alternative to embedded video links

Access via curriculum:

- Digital tools (Grades 2-8)
- Digital books (Grades K-5)

Hands-on demos accessible only via embedded YouTube links

@Home Unit resources

All resources are fully editable and customizable

- **Family Overview**
 - Provides context for families
- **Teacher Overview**
 - Outlines the unit and summarizes each lesson
 - Suggestions for adapting for different scenarios
- **Student materials**
 - ~30-minute lessons (slide decks or packets) featuring prioritized activities from Amplify Science curriculum

Example lesson: *Balancing Forces 2.2*

 AmplifyScience > Balancing Forces > Chapter 2 > Lesson 2.2

Lesson 2.2: What Objects Do Magnetic Forces Act On?

Lesson Brief
(3 Activities)

1 HANDS-ON
Investigating What Objects
Magnetic Forces Act On

2 TEACHER-LED DISCUSSION
Discussing What Objects
Magnetic Forces Act On

3 READING
Reading: Handbook of
Forces

@Home Lesson 5: Combines 2.1 and 2.2

@Home Lesson 5

Adapted from: Amplify Science *Balancing Forces* Lessons 2.1 and 2.2

Key Activities

- **Introducing the Chapter 2 Question:** Students review what they have figured out about the floating train, and are introduced to the Chapter 2 Question.
- **Do:** Students investigate non-touching forces, using any magnets they have on hand and other everyday materials.
- **Talk:** Students discuss evidence of non-touching forces and patterns in what objects are moved by magnets.

Ideas for synchronous or in-person instruction

Before meeting, have students complete the hands-on investigation. When meeting, have students share their observations and ideas. If meeting in person, you might also have students extend their hands-on exploration with materials from the *Balancing Forces* kit (as in *Balancing Forces* Lesson 2.1, Activity 1) before discussing findings.

Show Lesson 5 slides and packet sample

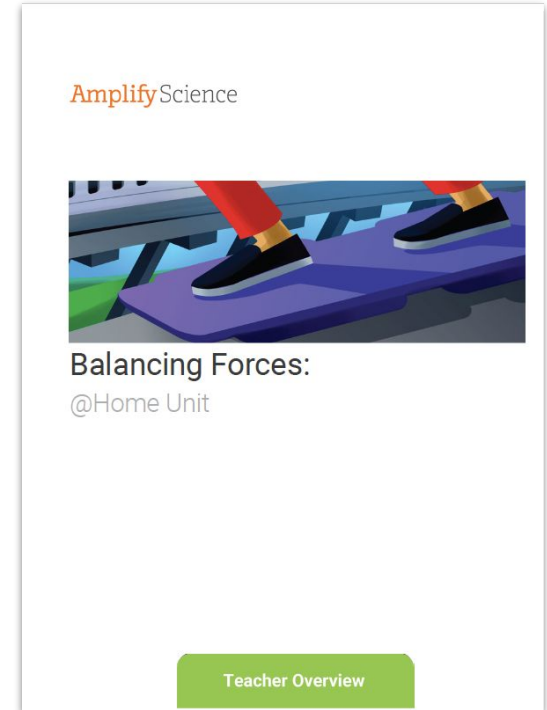

Teacher Overview

Unit-level

- Overview of resources
- Pacing
- Planning for instructional routines
- Assessment considerations

Lesson-level

- Chapters at a glance
- Lesson outlines

*Appendix provides the student investigation notebook pages that go with each lesson.

Explore your @Home Unit

Navigate to Balancing Forces on the Program Hub and explore. You may choose to start with the Teacher Overview, or dig into a lesson.

During your work time, consider how this resource can help you reach the vision you set for science this year.

Using the resources

Sample instructional scenarios

@Home Resources example use case

Remote Model: with synchronous & asynchronous learning

Days 1 & 2

Asynchronous

Assign: Lesson 1.1 @Home Video and sheets for students to work through on their own

Day 3

Synchronous

Teach: Lesson 1.2 using clips from the @Home Video

Day 4

Asynchronous

Assign: Lesson 1.3 @Home Packet or @Home Slides for students to work through on their own

Day 5

Synchronous

Revisit: hands-on or discourse-based activities from the week's lessons

Sample instructional scenario

Remote Asynchronous Model: Students work flexibly through content

Monday-Thursday

Assign 1-2 @Home Lessons (packet or slides) or @Home videos

Friday

Students submit work product through email, Google Classroom, or by writing on paper and texting the teacher a photo of their work

Let's Discuss

How do you plan to use these resources?

Plan for the day

- Framing the day
 - Welcome and introductions
 - Reflection and vision setting
 - Revisiting the Amplify Approach
- @Home Resources Introduction
 - @Home Videos
 - @Home Units
 - Resource selection
- Guided Planning
 - Utilizing @Home Resources
- Reflection and closing

Guided Planning

Planning with @Home Resources

Planning tool: @Home Resources

@Home Units: Planning for instructional routines and multimodal learning

A first step in planning to use @Home Units is determining how your students will engage with multimodal learning. Your @Home Unit's Teacher Overview provides guidance to frame decisions you'll need to make, and many suggestions to support decision making.

Find "Adapting the Amplify Science Approach for Remote Learning" in your Teacher Overview. Review the categories and suggestions, then use the organizer below to make a plan.

	How will you approach this modality or instructional routine? Note, you may vary your approach throughout the unit.	What do you need to plan or do to enact this approach?	How will you communicate your plan with students and/or families?
Student talk			
Student writing			
Reading

Planning to use @Home Units

- Download and read your unit's **Teacher Overview** on the Program Hub
- Plan for establishing **key routines** for talk, writing, reading, hands-on, and classroom wall references
 - (See: *Adapting the Amplify Science Approach for Remote Learning* in your unit's Teacher Overview)
- Determine **how students will access** slides or packets, and how they will **submit work**
- Consider **pacing**, including when you have synchronous science time with your students (if applicable)

Planning to use @Home Videos

- Determine **how students will access** videos, and how they will **submit work**
- Consider **pacing**, including when you have synchronous/in-person science time with your students (if applicable)
- **Plan for student access** to digital tools and/or digital books (if applicable)
- Consider how you'll **communicate with families** about this resource

Plan for the day

- Framing the day
 - Welcome and introductions
 - Reflection and vision setting
 - Revisiting the Amplify Approach
- @Home Resources Introduction
 - @Home Videos
 - @Home Units
 - Resource selection
- Guided Planning
 - Utilizing @Home Resources
- Reflection and closing

Vision Reflection

Revisit the vision you set for your students at the beginning of this session.

How will the Amplify Science@Home help you reach that goal?

e

Revisiting our objectives

Do you feel ready to...

- Select the Amplify Science@Home resources that best fit your instructional context?
- Internalize tips and strategies for remote and hybrid instruction using Amplify Science@Home?
- Plan how you will leverage Amplify Science@Home resources in a remote setting for back-to-school?

1- I'm not sure how I'm going to do this!

3- I have some good ideas but still have some questions.

5- I have a solid plan for how to make this work!

Amplify Science Program Hub

A new hub for Amplify Science resources

- **Videos and resources to continue getting ready to teach**
- Amplify@Home resources
- Keep checking back for updates

science.amplify.com/programhub

Welcome to Amplify Science!
