

Amplify.

Administrator Reports for Science

District and school administrator reports for Middle School Science

Overview

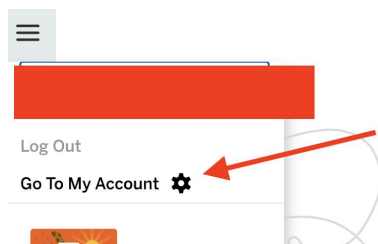

Self-service Administrator Reports are now available for **Amplify Science 6-8**. Access will be limited to district and school administrators, who will be able to open the reports directly from [Amplify My Account](#).

Within these reports, administrators can see an overview of teacher and student usage and student performance data by unit or skill for the current school year. Detailed assessment data report views are also available for download as a CSV file.

How to Get Access

In order to access Admin Reports, administrators must have access to Amplify Science 6-8 curriculum and the appropriate administrator, school administrator, or district administrator role associated with their district or school. For NYC DOE schools, all Principals and Assistant Principals have access, as well as some Instructional Leaders at the Borough Offices.

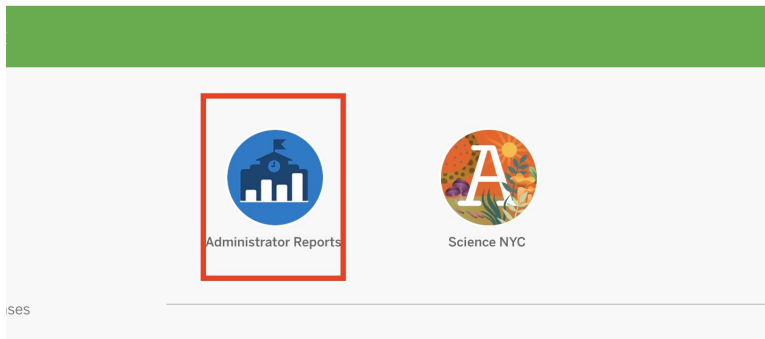

School administrators may access these reports directly from the **Go To My Account Tab** from the left side navigation bar.

AmplifyScience

6th Grade - NYC

Then select **Administrator Reports** from the middle of the page.

Snapshots

Upon login, administrators will land on the Snapshots page, which will provide:

- A quick glance at the number of active students versus total licensed students
- Active teachers versus total licensed teachers
- Active users who have signed in and interacted with Amplify since the start of the school year

Amplify Admin Reports SNAPSHOTS SCIENCE 6-8

Hi, Administrator!

School District Name

Science 6-8

Explore Reports

User Activity

Students	Teachers
932 Total Active Students	32 Total Active Teachers
982 Total Licensed Students	45 Total Licensed Teachers

Active users have signed in and interacted with Amplify since the start of the school year. Licensed users have been given access to Amplify.

Remember, our team is here to help.
If you ever find yourself needing assistance, Email us at help@amplify.com or look for the chat symbol at the bottom of your screen to speak with a live person.

Data on this page is aggregated based on the districts or schools you are associated with. For example, a district administrator would see a total active and licensed to Amplify Science across all schools in the district, and a school administrator would see a total for their specific school(s).

From the Snapshots page, navigate to other areas of Admin Reports:

- Click the **Explore Reports** button to see Usage reports
- Click on the **Download Data** button to see the Export Data page

Amplify Admin Reports

SNAPSHOTS SCIENCE 6-8

The screenshot displays the 'Science 6-8' section of the Admin Reports interface. On the left, there is a card titled 'Science 6-8' with a science-themed illustration and a white arrow pointing right. Below this card is a red button labeled 'Download Data' with a download icon. To the right, the 'User Activity' section is visible, showing two metrics: 'Total Active Students' with a value of 2, and 'Total Licensed Students' with a value of 257. Three red arrows point from the 'Explore Reports' card to the 'User Activity' section, indicating the flow of information.

Usage

Administrators can see an overview of student and teacher activity through Usage reports, including:

- Daily active users
- Units taught in the last week
- Number of students who have completed a reading assessment, by unit
- Number of students who have done work in the curriculum, by unit

Usage

Daily Active Users

How many people are using the program each day?

Total number of students, teachers, and admins who have visited Amplify Science since the start of school. Each day represents the maximum number of users who have logged in and viewed at least one page.

Units Taught

Which units were taught in the last week?

Units ranked by activity within the past week, based on the number of students who have submitted at least one activity per unit.

Unit Completion

How many students completed a unit assessment?

Number of students who have completed a unit's assessment.

Unit Assessment	Pre-Unit Student Count	Critical Junc... Student Count	End-of-Unit Student Count	Pre-to-Post Completion
1 Traits and Reproduction	787	812	805	2%
2 Earth, Moon, and Sun	699	314	94	-87%
3 Chemical Reactions	618	483	498	-19%
4 Populations and Resources	571	593	594	4%
5 Plate Motion	561	567	578	3%
6 Rock Transformations	552	601	396	-28%
7 Metabolism	480	473	38	-92%
8 Force and Motion	409	478	303	-26%
9 Natural Selection	402	714	712	77%
10 Evolutionary History	268	522	502	87%
11 Thermal Energy	158	0	0	-100%
Ocean, Atmosphere, and	120	208	0	-100%

Unit Title	Student Count
1 Traits and Reproduction	851
2 Earth, Moon, and Sun	795
3 Natural Selection	758
4 Evolutionary History	741
5 Rock Transformations	707
6 Chemical Reactions	705
7 Force and Motion	688
8 Populations and Resources	623
9 Plate Motion	603
10 Metabolism	521
11 Ocean, Atmosphere, and Climate	415
12 Thermal Energy	167
13 Weather Patterns	30

Students per Unit

Which units have students done work in?

Total participating students per unit since the beginning of the school year.

Remember, our team is here to help.

If you ever find yourself needing assistance, Email us at help@amplify.com or look for the chat symbol at the bottom of your screen to speak with a live person.

If you are a district administrator or a multi-school administrator, use the drop-down menu to filter results on a specific school. The reports on the page will reload each time a school or the district is selected.

Outcomes

To reach the Outcomes section, click on the link in the left menu panel.

The screenshot shows a dashboard interface. On the left is a vertical menu under the heading 'Usage'. The menu items are: 'Daily Active Users' (with a vertical bar to its left), 'Units Taught', 'Unit Completion', 'Students per Unit', 'Outcomes' (with a checkmark icon and a red rectangular highlight around it), and 'Data Export' (with an external link icon). The main content area on the right is titled 'Daily Active Users' and contains the following text: 'How many people are using the each day?' followed by a paragraph: 'Total number of students, teachers, and have visited Amplify Science since the school. Each day represents the maximum number who have logged in and viewed at least'.

From here, administrators will be able to see if students are mastering the Science content by their Progress Build levels from Pre-Unit, Critical Juncture, and End-of-Unit Assessments.

Please note the Launch units and engineering internships do not include assessments so those will not be included. If your school or district has opted out of specific core units, the reports will display blank.

If you are a district administrator or a multi-school administrator, use the drop-down menu to filter results on a specific school. The reports on the page will reload each time a school or the district is selected.

Data Export

Are students mastering the content?

These graphs show the percentage of students at each "Progress Build" level from each Unit Assessment. The lowest level is "0" (dark grey) and is expected to be the most common outcome at Pre-Unit Assessment. The highest level is "3" (dark orange) and is expected to be the most common at End-of-Unit Assessment. For each unit, you should see growth in the amount of students at level "3" (dark orange).

If you ever find yourself needing assistance, Email us at help@amplify.com or look for the chat symbol at the bottom of your screen to speak with a live person.

Data Export

Administrators can download student data for unit assessment submissions. Click on the “Export CSV” button to download a CSV file that includes detailed student data aggregated over the school year. The size of the file will continue to grow as the school year progresses and more data is accumulated. For a detailed explanation of the columns and data included in the file, refer to the [“Admin Reports Export Guide for Science” PDF](#) available in the Admin Reports app.

The screenshot shows the Amplify Admin Reports app interface. At the top, it says "Amplify Admin Reports" with "SNAPSHOTS" and "SCIENCE 6-8" next to it. Below this is a header for "Science 6-8 Reports" with a "School District" dropdown menu. A navigation sidebar on the left includes "Usage" (with sub-items: Daily Active Users, Units Taught, Unit Completion, Students per Unit), "Outcomes" (with sub-item: Progress Build), and "Data Export" (which is selected). The main content area is titled "Data Export" and features a prominent purple button labeled "Download data (CSV)". Below the button, it states "Data is refreshed every 24 hours at 12 AM ET, starting July 1, 2019." A section titled "What's included in the download file?" points to the "Admin Reports Export Guide for Science" PDF. At the bottom, there is a support message: "Remember, our team is here to help. If you ever find yourself needing assistance, Email us at help@amplify.com or look for the chat symbol at the bottom of your screen to speak with a live person." A chat icon is visible in the bottom right corner. The footer contains the copyright notice: "© 2013 - 2020 Amplify Education, Inc. All rights reserved. Terms of Use | Privacy Policy".

If you are a district administrator or a multi-school administrator, use the drop-down menu to filter Data Export on a specific school. Once a specific school is selected, click the Export CSV button to download a CSV for that school.
