THE LAWRENCE
HALL OF SCIENCE
UNIVERSITY OF CALIFORNIA, BERKELEY

Teachers

Welcome to Amplify Science!

I am new to Amplify Science

Start with our Navigation Essentials video for K-5 or Overview video for 6-8. Log into the Program Hub and after clicking Professional Learning, choose Getting Started.

I am returning to Amplify Science

Log into the Program Hub and after clicking Professional Learning, choose Planning.

Teachers

I'd like to start planning

If you have time...

Log into the Program Hub and after clicking Professional Learning, choose Unit Orientation. Begin with the video for your appropriate grade level and then go directly to the curriculum platform for your grade level.

If you have MORE time...

Visit the Unit Level video first, followed by the Chapter Level and Lesson Level videos.

Teachers

Now what?

I'm comfortable teaching my content

Dig into our Responsive Relaunch resources to hear from our partners at UC Berkeley's Lawrence Hall of Science about Amplify Science and returning to in-person learning.

I need help becoming comfortable teaching my content

Find the Science Background section of the Teacher Guide located on the landing page for each unit in each grade.

What are my options for professional learning?

Purchasing Amplify Science through the Core Curriculum program means you have access to central professional learning sessions. You can find out more about available sessions here on the NYC Resources site. We also recommend following the self-paced learning video pathway that can be found on the Program Hub. Finally, you can contact us for additional PL at your school site.

I need help. Who do I contact?

We have technical and program support available from 7 a.m. to 9 p.m. EST, Monday through Friday, through a variety of channels including a live chat option that enables teachers to get immediate help in the middle of a busy school day.

For your most urgent questions

- Search our help website for articles and video tutorials
- Use our live chat within your program by clicking on the orange icon in the lower right hand corner of your screen
- Call our toll-free number: (800) 823-1969

For less urgent questions:

Email help@amplify.com

For pedagogical questions:

Email edsupport@amplify.com

I have questions about materials.

For questions about receiving materials, contact Core Curriculum at curriculum@schools.nyc.gov or (718) 935-3334.

For questions about materials you've already received, consult the Materials section on the [NYC Resources page](#). Among other things, you can find unpacking guides for your kits.
