

The Amplify Science Newsletter

With school back in full swing, we're here to equip you with the tools you need to support your students and make your job easier. This month, we're excited to help you make the most of your Amplify Science curriculum with our new **Up Your Amplify Game** training collection. Spend just 5–10 minutes there each week to get a short overview of Science features, or dive a little deeper with one or two related help elements. You'll find the collection on the Science page of start.amplify.com, and we'll add something new each week to help you up your Amplify game.

Did you enjoy our recent training webinar series **Back to Basics: Getting started with Amplify Science**? These hour-long events were a hit with attendees, and the replays are [now available on start.amplify.com/bonus](https://start.amplify.com/bonus)! Whether you missed a session, want to share with a colleague, or just want to relive the learning, these sessions will help you make the most of the program. You can also download a checklist of activities covered in each session to help you implement Amplify Science in your classroom.

No matter what your classroom situation looks like this fall, we'll help you stay on track with the **Remote and Hybrid Learning Support** feature on the Science page of [start.amplify](https://start.amplify.com). Designed with you in mind, this site will be continually updated to equip you with the tools you need to excel in an ever-changing education environment.

What's Coming Up?

We are regularly updating our [NYC Resources site](#) with the latest information about upcoming opportunities for professional learning. Check-in with us to see what training is available through the Department of Education this fall as well as many recordings of trainings from last school year!

Looking for more help with discourse, differentiation, engagement and more? Peruse the rest of the site for additional resources to help you prepare each day and reach every child where they're at. You can also consult the Program Hub within the platform for more planning support.

Spotlight

Laura Marshall
Meadowdale Elementary, Edmonds, WA

"Laura has worked tirelessly to help make sure all second graders in our district have equitable access to science this year"

— Jessica Brady, teacher

We want to spotlight you next!

Each featured educator will receive a special gift from us.

Advice and answers

Prepare and present easier than ever before with Classroom Slides

Classroom Slides [K-5](#) and [6-8](#) provide a convenient option for presenting student instructions, student prompts, and other text and visuals. They're also fully editable so you can customize them for your own classroom!

Amplify uptime

Each month, we share our historical uptime for your Amplify program. During the month of September, the Amplify Science uptime was 99%.

[Learn more about uptime](#) and subscribe to status updates to stay informed.

Customer insights

We want to hear from you!

Your feedback is important to use as we develop new ways to help you learn and grow with Amplify. Please take a few minutes to share your thoughts in this quick survey- and we'll send you a gift to show our gratitude! [Tell us what you think!](#)

WE ASKED AND YOU RESPONDED:

Which Remote and Hybrid Learning Support is most helpful to you?

20% • The Amplify Science Program Hub

40% • @Home units

40% • @Home Videos

30% • Hands On Investigation videos

10% • Read-Alouds for K-5

10% • Science K-5 Fillable Copymasters and Investigation Notebooks

Let's connect

Come together with fellow educators by joining the [Amplify Science Facebook group](#)! Gain support, share tips and trends, and experience connection with Amplify teachers from all over the country. You might even have the opportunity to win prizes. Kats Pack, Jenny Jackson Garcia, and Stacey Hartman won a recent giveaway by sharing what they love about teaching!
