

Language Studio

The ELD companion to CKLA that grounds English language development in the rich content of the core program

Language Studio is a companion ELD program for Grades K-2 that extends the knowledge-rich lessons in CKLA. Students learning English are supported at all proficiency levels as they strengthen vocabulary and language skills while applying and extending their knowledge. This unique approach provides an effective structure for helping English language learners build proficiency in English.

Language Studio supports the latest ELD standards, including WIDA PRIME V2.

Language Studio supports ELLs through:

- Lessons that parallel CKLA to support students as they move between the two programs.
- Explicit teaching of academic and domain vocabulary that ties back to and unlocks the meaning in complex texts.
- Daily lessons for instruction in all four domains of language: reading, writing, speaking, and listening.
- Tools that help classroom teachers address the needs of ELLs, including progress-monitoring rubrics and in-the-moment supports.

Language Studio

Language Studio effectively integrates into the core program by building on CKLA's knowledge domains. It provides a bridge to the rich core content so students can—in English—explore great civilizations, meet remarkable people, and examine world-changing events and ideas. Language Studio brings the world to English language learners.

Language Studio Components

Language Studio Teacher Guides feature:

- Formative and summative assessments and language proficiency rubrics to aid progress-monitoring.
- Targeted differentiation and scaffolding for students at five levels of English proficiency.
- Lesson segments to inspire deep authentic learning, including Talk Time, Building Background, and On Stage.

Language Studio Activity Books feature:

- Domain content from CKLA read-alouds to engage students in conversation.
- Authentic and relevant hands-on activities designed for students who are learning English.
- Visual supports to help ELLs bridge experience and knowledge, including engaging images, anticipation guides, and graphic organizers.
