

Dear Family:

This year at     (School Name)    , we have been using Amplify Tutoring. This service is when a virtual tutor works consistently with a small group of students three times per week to teach important basics of literacy.

We have worked closely with Amplify to ensure that your child is not missing any core instruction from their teacher while they are in tutoring. In fact, the learning in tutoring is directly aligned to what your child is learning in reading with their teacher.

We know that when a child has an opportunity to work with a tutor in addition to a classroom teacher, the child makes significant progress.

We are excited to share with you that starting this month your scholar will have an opportunity to receive additional tutoring during the school day to support literacy.

I look forward to working together with your scholar and Amplify. We will have fun teaching and helping your scholar build an even stronger foundation for literacy!

Please be on the lookout for information about caregiver webinars to learn more about Amplify Tutoring in the upcoming weeks.

Once again thank you, and I am excited about sharing your child's progress with you over the next few months.

Sincerely,
