About this Book

This book has been created for use by students learning to read with the Core Knowledge Reading program. Readability levels are suitable for early readers. The book has also been carefully leveled in terms of its "code load," or the number of spellings used in the stories.

The English writing system is complex. It uses more than 200 spellings to stand for 40-odd sounds. Many sounds can be spelled several different ways, and many spellings can be pronounced several different ways. This book has been designed to make early reading experiences simpler and more productive by using a subset of the available spellings. It uses only spellings students have been taught to sound out as part of their phonics lessons, plus a handful of Tricky Words, which have also been deliberately introduced in the lessons. This means the stories will be 100% decodable if they are assigned at the proper time.

As the students move through the program, they learn new spellings and the "code load" in the decodable Readers increases gradually. The code load graphic on this page indicates the number of spellings students are expected to know in order to read the first story of the book and the number of spellings students are expected to know in order to read the final stories in the book. The columns on the opposite page list the specific spellings and Tricky Words students are expected to recognize at the beginning of this reader. The bullets on the inside of the front cover identify spellings, tricky words, and other topics that are introduced gradually in the unit this reader accompanies.

Meet the Illustrator

Olioli Buika

I'm from Maui, one of the islands that make up the state of Hawai'i. One of my favorite memories is waking up early in the morning with my friends to watch the sunrise on Haleakala ("House of the Sun"). It gets really cold at night, so you have to wrap up in blankets and coats. When the sun finally meets you above the clouds, it feels incredibly warm and paints everyone in a golden light. It was exciting to see where Kit would take me as we explored her life together! Because the text was simple and open to interpretation, I had the opportunity to illustrate some of my favorite things about growing up in Hawai'i, like having a spam musubi for lunch and being surrounded by so much nature.
