# Reporting Guide

DIBELS® 8th Edition

# Welcome

mCLASS® gives you detailed insight into your students' reading development across foundational literacy skills, empowering educators with instructional recommendations specific to each student's unique needs.

In this guide, you will find a wealth of valuable reporting information that mCLASS provides for everyone, from classroom teachers and literacy specialists to principals and district leaders, as well as parents and guardians at home.

## EDUCATOR INSIGHT

“In which basic early literacy skills are students most proficient, and in which are they least proficient?”

## Classroom Skill Summary

This report is a dashboard showing benchmark performance on each skill. Teachers can use it to determine which skill areas need instructional focus at a classroom level.

	Beginning of Year	Middle of Year	End of Year	Summary			
		Composite	Phonemic Awareness PSF	Letter Sounds NWF-CLS	Decoding NWF-WRC	Word Reading WRF	Reading Fluency ORF
<b>Class Summary</b>	Well Below Benchmark	20% 3 Students	13% 2 Students	27% 4 Students	7% 1 Student	20% 3 Students	7% 1 Student
<b>15/15</b> Students Assessed	Below Benchmark	27% 4 Students	33% 5 Students	20% 3 Students	67% 10 Students	40% 6 Students	73% 11 Students

<b>0</b> In Progress	Above Benchmark	20% 3 Students	13% 2 Students	40% 6 Students	0% 0 Students	20% 3 Students	7% 1 Student

Both the percentage and number of students in each performance category are displayed for each skill assessed.

# Classroom Benchmark Summary

This report is a classroom-wide view of overall reading performance. Teachers can use this report to determine if composite scores improved, declined, or remained the same each semester.

“How many of my students improved in each benchmark period?”

		Beginning of Year	Middle of Year	End of Year
<b>Class Summary</b>	Well Below Benchmark	20% 3 Students	7% 1 Student	0% 0 Students

0 Not Assessed	At Benchmark	33% 5 Students	40% 6 Students	53% 8 Students
0 In Progress	Above Benchmark	20% 3 Students	20% 3 Students	27% 4 Students

This report focuses on composite scores for each time of year.

“Which skills have my students mastered?”

“Which skills should my students continue practicing?”

## Detailed Benchmark Performance

Teachers can see each student's performance during the current school year, on each subtest as well as the overall composite. The benchmark goal displays below the subtest name when applicable.

Classroom reports show each student's Lexile level and the percentile they fall in for each skill.

## Dyslexia Screening and Risk Indicator

Identify students who are at risk for reading difficulties, including dyslexia, based on their results from foundational skills measures and additional measures as needed by local policies. A risk indicator icon ⓘ marks which students are at risk based on their composite score, Spelling, and RAN.

<b>Grade 1</b> Last Name, First Name	Composite Goal 331	LNF Goal 51	PSF Goal 39	NWF-CLS Goal 42	NWF-WRC Goal 8	WRF Goal 15	ORF-Accu Goal 67%	ORF Goal 21	VOCAB Goal 23	SPELL Goal 23	RAN Goal 62

Educators can use the additional information collected from these measures to develop and implement targeted interventions for at-risk students

“Which of my students need intensive support to prevent further reading difficulties?”

# Progress Monitoring Summary

See which subtests have been assessed since the most recent benchmark assessment, how students performed on the three most recent progress monitoring assessments for each measure, and which students have not been progress monitored since the benchmark assessment.

“Which students are making adequate progress toward the next benchmark goal?”

Progress Monitoring

		Reading Accuracy ORF-Accu	85% Well Below	92%	94%	95%	99%	99%		11/20/2019

The Aimline displays the three most recent progress monitoring scores on a slope to show whether students are on track to reach the next benchmark goal.

“What is the minimum amount of growth my student needs to reach their goal by the next semester?”

## Goal Setting Tool

The Zones of Growth (ZoG) analysis uses a rich set of national data to determine student goals for the next benchmark period. Teachers can use the Goal Setting Tool to view these recommended goals or modify the default goals for individual students as they see fit, if the default goal is too challenging or not challenging enough.

Zones of Growth						
Grade 1	Skill	Start - BOY	Growth Rate			End - MOY
Last Name, First Name		Score	Average	Above Average	Well Above Average	Goal
Ashley, Emma	Letter Names LNF	40 Well Below	46 - 51 ○	52 - 62 ●	63+ ○	60 
	Phonemic Awareness PSF	33 Below	41 - 45 ●	46 - 53 ○	54+ ○	43 
	Letter Sounds NWF-CLS	25 Below	36 - 40 ○	41 - 48 ○	49+ ●	49 
	Decoding NWF-WRC	3 Below	8 - 10 ●	11 - 13 ○	14+ ○	10 
	Word Reading WRF	8 Below	12 ○	13 - 15 ○	16+ ●	16 
	Reading Accuracy ORF-Accu	67% Benchmark	78 - 85 ○	86 - 92 ●	93+ ○	87 

The flag indicates the benchmark performance level the student will reach by the next benchmark period for that skill, if they achieve the growth rate indicated by the purple dot.

# Growth Outcomes

Teachers and interventionists can see each student's actual growth achieved and how it compares to the goal that was set for the student.

Progress Monitoring    Goal Setting    **Growth Outcomes**    [How to read growth analysis details](#)

Time frame  
**BOY-MOY**    MOY-EOY    Full Year

Even if students did not meet the goal, teachers can offer positive reinforcement about the growth they made by comparing the number of points needed to reach the goal with the number of points students actually achieved.

“Are my students receiving effective instruction?”

“Should I adjust my tactics to help students catch up?”

## Small-group Instruction

The mCLASS instructional tool automatically groups students based on benchmark results and response patterns. Teachers can see that each group is associated with one main skill, and the name of the group (e.g., phonemic awareness) is based on a sub-skill that students need to master.

Students may have repeatedly missed a particular letter or letters and need reinforcement activities on these particular letter sounds in isolation and in the context of words. Use the observed patterns below from NWF results for further identification of specific letters/sounds that need to be reviewed.

Provide students exposure to vocabulary and comprehension instruction through teacher read-alouds and oral instruction.

**Need to work on** specific letter sounds and on reading whole words fluently.

**Language Considerations** ⓘ

**ENGLISH LANGUAGE LEARNER**    **LANGUAGE VARIETY**

Native language and literacy should be assessed for potential transference to English language and literacy. Include modeling, examples, and practice sounds and letter combinations and words that include the phonic elements from both languages.

The "Need to work on" section describes the skill deficits shared by students in this group, and can be used to target instruction.

“Which skills have students with similar assessment results already mastered? Which do they need to work on?”

## General English learner supports

The expanded instructional tool displays more detailed information that can be used to plan instruction, including information tailored to English learners (ELs) instruction. Each profile contains a description of the skills you can build on while targeting instruction, and sometimes includes prerequisite skills. mCLASS instruction provides additional support for students who speak a language variety different from General American English.

**Language Considerations** ⓘ

ENGLISH LANGUAGE LEARNER **LANGUAGE VARIETY**

Certain words, especially those with ending consonant clusters, may be systematically pronounced or read differently in the student's language variety.

*For example, students may only pronounce the first sound in ending consonant clusters, (e.g., **min** for **mind** and **tes** for **test**).*

Each group contains specific information for ELLs and General American English learners based on students' response patterns.

“How can I support my ELs and General American English learners in acquiring this skill?”

“Which activities can I use with this group of students?”

## Small-group Activities

The observed patterns checklist contains observations that teachers can use to filter the activities displayed below. The activities section includes recommended activities for reinforcing the skills needed by students in the group.

# All Activities

The All Activities tab is where teachers can quickly access hundreds of activities, organized by skill, to further target small-group and individual instruction.

Activities displayed by skill can be further filtered by grade.

“What activities can I use in my classroom to help students regularly practice their early literacy skills?”

“Which students need a different Intervention strategy?”

“Which educators can I collaborate with to determine next steps?”

mCLASS Intervention is sold separately from mCLASS with DIBELS 8th Edition.

## Intervention Progress Monitoring Report

This report (available to educators using mCLASS Intervention) includes recent progress monitoring data and intervention details such as the number of Bursts received, Burst group name, Burst instructor name, and classroom teacher’s name.

Teachers can identify Burst students who may need a different intensity (e.g., smaller group size) or new instructional approach (e.g., different Tier 3 intervention).

# Intervention Group Report

This report (for customers with mCLASS Intervention) helps intervention coordinators evaluate the homogeneity of each group and determine when regrouping is necessary.

The screenshot displays the 'Intervention Group Report' interface. At the top, there are four tabs for different bursts: 'Burst #1 Jan 17', 'Burst #2 Feb 13', 'Burst #3 Mar 11', and 'Burst #4 Mar 27'. The 'Burst #1' tab is selected. Below the tabs, there is a document icon and the text 'Burst #1' followed by a list of skills: 'Phonological Awareness' and 'Letter Sound Knowledge'. There are two buttons: 'View PDF' and 'Download'. Below this is a section titled 'Snapshot when Burst was created on Jan 17, 2019'. This section contains a table with columns for 'Students' and 'Skills'. The 'Skills' columns are: 'Phono. Aware.', 'Letter Sounds', 'Blending', 'Reg. Words', 'Irreg. Words', 'Letter Combos', 'Adv. Phonics', 'Reading Flu.', 'Vocab.', and 'Comp. Skills'. The 'Students' listed are 'NATALIE BATISTE', 'JOHN CARRAWAY', and 'RONNIE DANIELS'. The 'Phono. Aware.' and 'Letter Sounds' columns for all three students are highlighted in yellow. An orange box highlights the 'Phono. Aware.' and 'Letter Sounds' columns for all three students, and a callout box points to this area.

EDUCATOR INSIGHT

“Has this student mastered foundational early literacy skills from earlier grades?”

“What differentiated support does this student need to meet grade-level expectations?”

## Performance History

Teachers can review a timeline of each student's mCLASS results from kindergarten through grade 6. These results can be used for RTI/MTSS (Response to Intervention/Multi-Tiered System of Supports), IEP (Individualized Education Plan), parent meetings, and other documentation needs.

## Probe Details

Teachers can click a student's score from any report view to open the assessment details report, which includes a documented record of student responses. The details are analyzed to reveal significant response patterns and recommend targeted group and individual instruction.

“What types of spelling patterns or words does this student need to practice?”

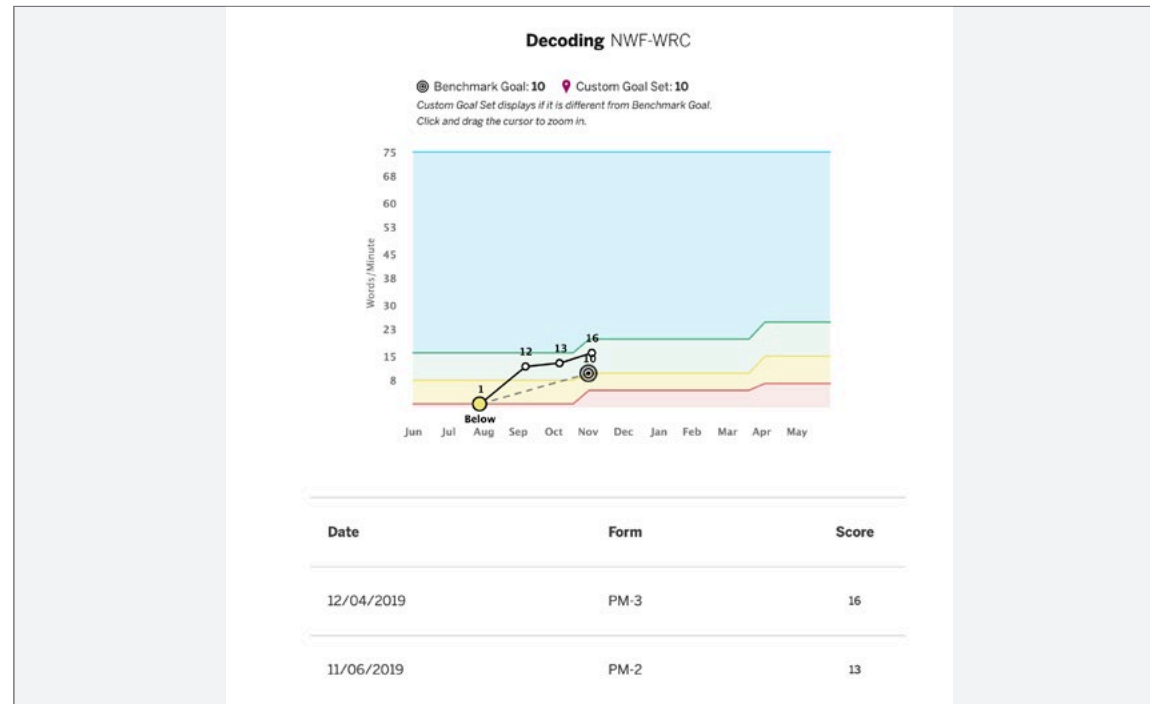

The running girl bar at the top of each report indicates where the student's score falls relative to the benchmark goal.

## Progress Monitoring Graphs

Teachers can review a student's benchmark and progress monitoring scores for the entire year. Each skill is shown in a separate view.

Teachers can zoom in on the graph to see a clearer view of the data points.

“Is this student progressing toward the next benchmark goal?”

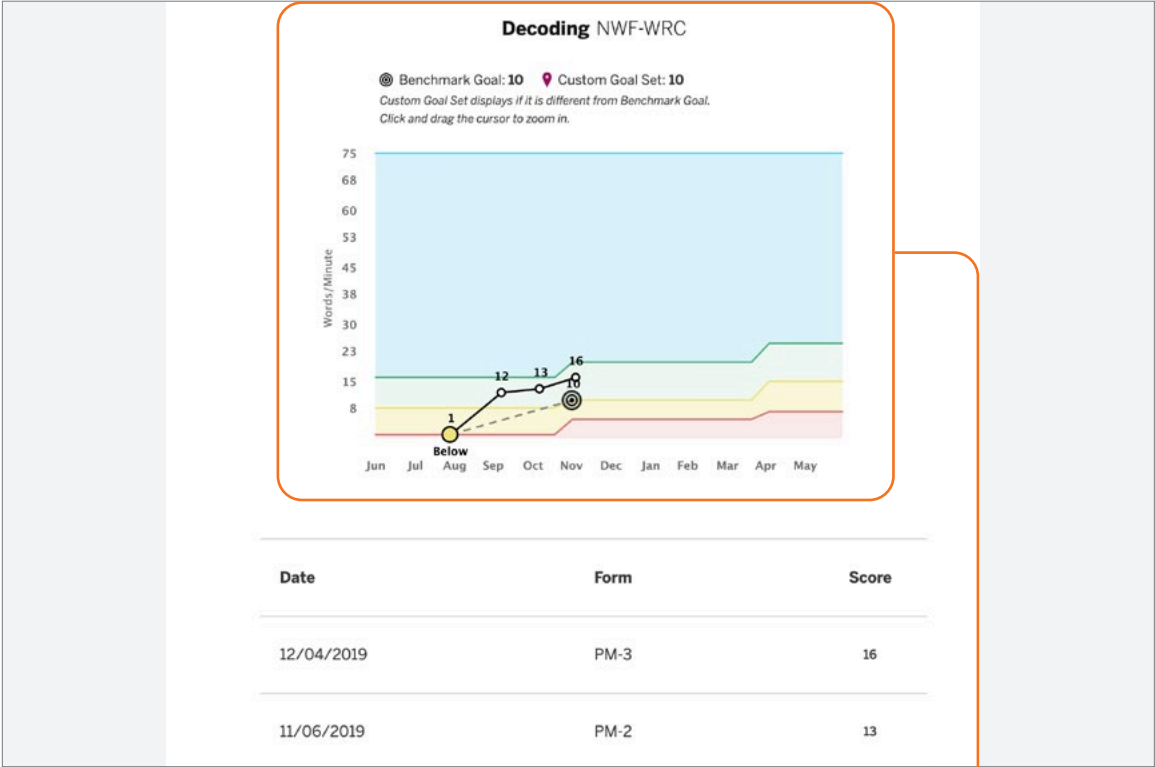

“Is differentiated instruction necessary?”

# Custom goals on Progress Monitoring Graphs

Teachers can track the progress students are making toward their individual goals for each skill on the graph. A pin icon on the graph represents a modified individual goal when it is less than or greater than the default “At Benchmark” goal.

Goal setting is a helpful way of motivating students to achieve a specific outcome. When students see their progress toward a goal during check-ins with their teacher, they can celebrate the growth they have made.

“Is differentiated instruction needed?”

“What patterns have emerged from this student’s assessments?”

## Individual instruction

Teachers can review significant patterns that emerge from the student's assessment results in a single view, and download activities that address those patterns.

**Why is Emma being assessed?**  
The teachers and administrators at our school want Emma to read successfully. As part of this commitment, we use DIBELS® 8th Edition (Dynamic Indicators of Basic Early Literacy Skills), which evaluates Emma's performance on the literacy skills necessary to become a successful reader.

**What do the below assessments mean?**  
Emma needs additional instructional support and practice to meet grade-level expectations in DIBELS. The DIBELS composite score reflects performance on the skills shown below.

“How can I help my child practice reading skills at home?”

## Home Connect activities

The activities section of the Home Connect letter contains a list of recommended activities based on the skill areas where the child needs support. Parents and guardians can use this section to support their child’s skill development.

<b>Emma Ashley</b> 1st Grade, Beginning of Year	
	<p><b>Activities for Emma</b></p> <p>Even if you have just a few minutes each day, you may be surprised by how much you can help Emma learn to read. Here are some activities we recommend based on Emma’s most recent mCLASS reading test. Most of these activities can be done just about anywhere. Feel free to change them a bit to match Emma’s interests or to fit your schedule.</p>
<p><b>Where Emma needs support</b></p> <p> <b>Phonemic Awareness</b> Hearing and using the smallest units of sound in spoken words</p> <div style="border: 1px solid #ccc; padding: 5px; margin-top: 10px;"> <p><b>Find Specific Sounds</b></p> <p>Have your child and other family members listen for words with a specific sound in family conversation or on television and radio programs, such as words that start with the <i>s</i> sound or that end with the <i>k</i> sound. Have your family members share their heard words and list them on a piece of paper.</p> <p><b>Break the Words Apart</b></p> <p>Help your child take spoken words apart and put them together. Have your child separate the sounds in simple three-letter words, listening for beginning, middle, and ending sounds. For example, pronounce <i>mom</i> as follows: <i>mm-o-mm</i>. Next, ask your child to blend sounds</p> </div>	

Activities in the letter are designed for use at home. A link to the Home Connect site provides activities for At Home or On the Go.

## Home Connect family portal

The Home Connect site provides additional activities for families to choose from to help reinforce and practice critical reading skills with their children. The site is available in both English and Spanish within mCLASS with DIBELS 8th Edition.

“Where can I find other activities to help my child practice reading skills every day?”

The screenshot shows the mCLASS Home Connect family portal. At the top, the logo "mCLASS® Home Connect®" is on the left, and a button labeled "En Español" is on the right. Below the logo is a navigation bar with a "HOME" link and the current page title "Phonological Awareness" with a help icon. To the right of the title are icons for PDF and download. Below the navigation bar are three filter buttons: "All Activities" (selected), "At Home", and "On the Go". The main content area displays three activity cards:

- Word Race:** GRADES: K-2, TARGET SKILLS: Isolate Beginning Sound, TYPE: At Home. Description: Help your child pick out the first sound in words, an important step in learning to read. Give your child one minute to name as many objects, people, foods, etc that start with a given sound, such as sss. When the minute is up, have them try to beat their score with another sound, such as...
- Count the Words:** GRADES: K-2, TARGET SKILLS: Word Counting, TYPE: At Home. Description: Have your child count the number of words in a spoken sentence. Say a sentence. (Example: "Let's go to the park.") Have your child tell you the number of words in the sentence. Switch roles, allowing your child to give you a sentence and have you say the number of words it...
- Mystery Game:** GRADES: K-2, TARGET SKILLS: Isolate Beginning Sound, TYPE: At Home. Description: Play a mystery game in which you are calling your child's name or looking for an object around the house. For example, say, "I'm thinking of someone whose name begins with (say the sound for the letter t)," or "I'm looking for an item that begins with (say the sound for the letter g)."

Each card includes a "READ MORE" link.

The Home Connect site is a free resource that can be used by any family, regardless of whether you send them Home Connect letters.

### EDUCATOR INSIGHT

“Which districts, schools, or programs need additional resources to support student growth and administration fidelity?”

School leaders can customize any report to show data based on a particular view, population, time, measure, or student demographic, using a broad range of filters.

The screenshot displays a reporting interface with several filter sections:

- View:** Segment Results by (Program), Grade Divider (On).
- Population:** Show Students Enrolled (Now, On Test Day), Grade (All Grades), Programs (selected) or Districts, All Programs.
- Time:** School Year (2019-2020), Period (19-20 BOY).
- Measure:** Measure (All Measures), Level Filter (All Levels).
- Student Filters:** A grid of dropdown menus for Alternate Assessment, Approved Accommodat..., Assessed in All Periods, Classed/Unclassed, Disability, ELL Status, Economically Disadvant..., English Proficiency, Gender, Home Language, Meal Status, and Migrant.
- Clear Filters:** A button to reset the filters.

Each report features pre-selected parameters that you can modify to create the data view that best meets your needs.

“What are the performance trends among students in a particular district, program, grade, or demographic?”

## Reporting and analysis suite: Comparing Measures

The Comparing Measures Report analyzes how one group of students performed on multiple assessment measures across one or more time periods. Instructional leaders can see the number or percentage of students who achieved a specific performance level or goal on each measure.

Clicking any bar segment shows the students who comprise that benchmark performance level.

“What are instructional areas of strength or weakness for an entire district/school/grade/class?”

“How have students in a particular district/school/grade/class progressed in different areas over time?”

# Reporting and analysis suite: Comparing Populations

The Comparing Populations Report helps school leaders analyze assessment results for different student populations, such as students in different schools, grades, or demographic categories.

“How have different populations changed over time?”

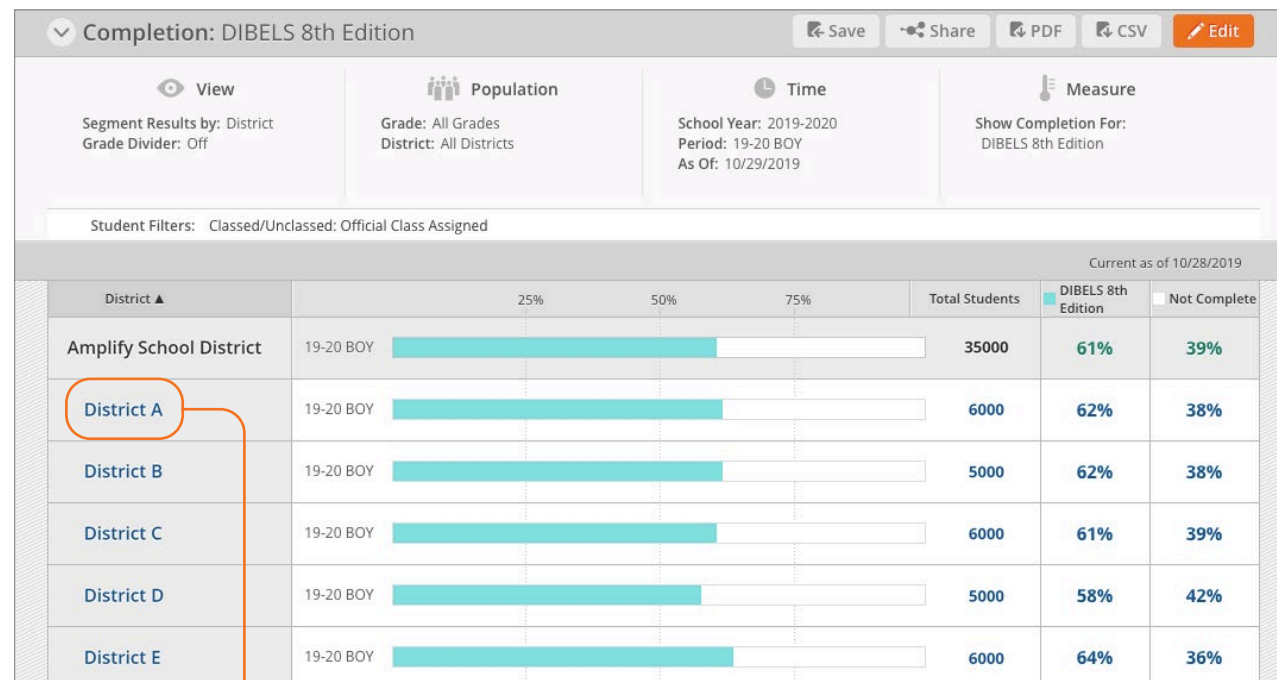

Click the Reference Data option to compare your report population to a broader subsection of the population or to the complete population, such as a single district, or all districts across the state.

## Reporting and analysis suite: Benchmark Completion

School leaders can use the Benchmark Completion Report to track the number of students who have completed the beginning-, middle-, or end-of-year benchmark assessment.

Drill down to view the same data one level down in the institutional hierarchy by clicking the municipality, district, school, or teacher label in the population column.

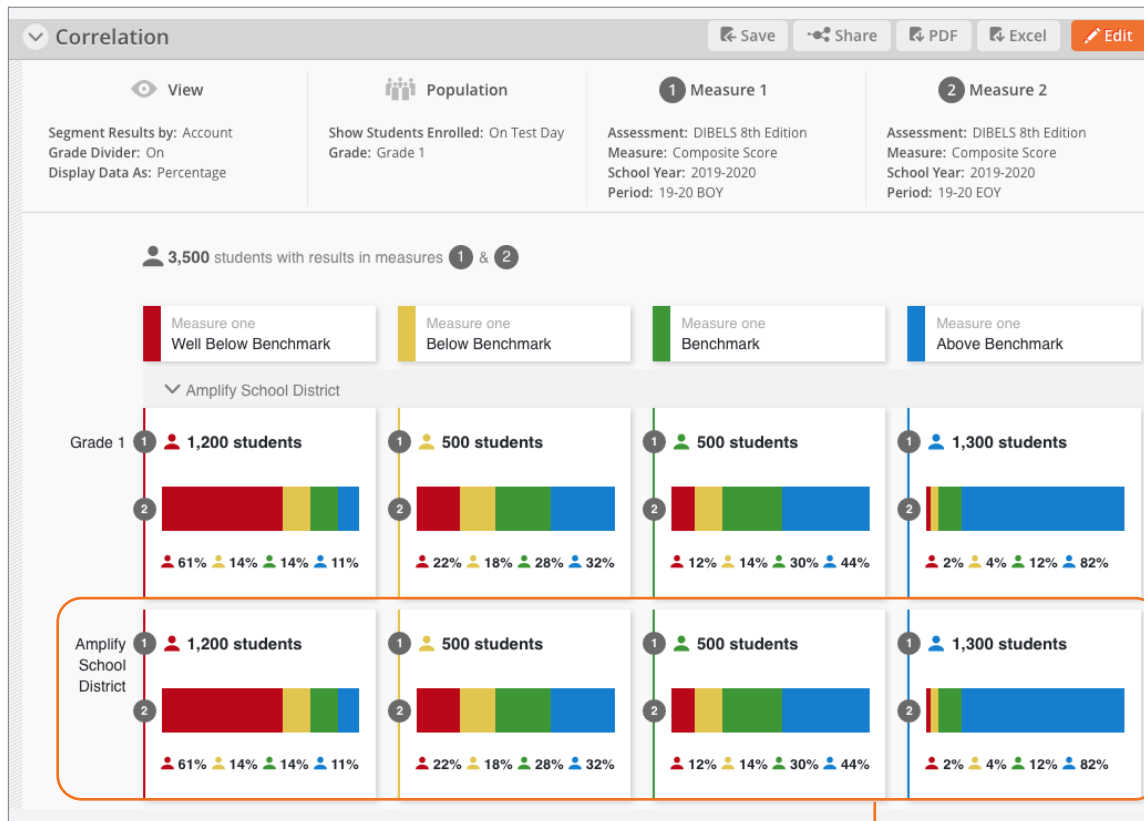

“Where should resources be focused to ensure the timely completion of required assessments?”

# Reporting and analysis suite: Correlation

The Correlation Report helps school leaders track student performance over time on a specific measure, or compare student performance on two different measures.

“How effective have institutions and teachers been at moving students among performance levels?”

School leaders can compare student results for a grade or school against results for the entire district.

“Have all of my students who require progress monitoring been assessed?”

## Reporting and analysis suite: PM Fidelity

School leaders can use the PM (Progress Monitoring) Fidelity Report to quickly determine if students are being progress monitored with the appropriate frequency.

Reports can be filtered based on the number of weeks between assessments.

## Reporting and analysis suite: Download Your Data

The Download Your Data Reports help school leaders flexibly analyze assessment data across all districts and programs by exporting student records into a CSV file, which can be uploaded directly into student information systems.

The screenshot shows the 'Download Your Data' page in the Amplify Reporting suite. The page has a header with the user's name 'Yolanda Rodriguez' and a 'Log Out' button. Below the header are navigation links: Home, Notices, Admin, Book List, and Support. The main content area is titled 'Download Your Data' and contains a form with the following fields:

- Assessment: DIBELS 8th Edition
- Programs/Districts:  Programs,  Districts
- District: All Districts
- Grade: All Grades
- School Year: 2019-2020
- Period: 19-20 BOY

At the bottom of the form are 'Clear' and 'Download' buttons. To the right of the form are two informational boxes: 'Updates' and 'Data Dictionary'. The 'Updates' box says 'Read about recent changes to data exports.' and has a 'Learn more' link. The 'Data Dictionary' box says 'View descriptions of each column in this data export.' and has a 'Download' link.

Use the options on this page to refine the scope of the student results and enrollment data contained in your download.

“Which districts have met statewide requirements for student growth?”

## Reporting and analysis suite: Student Lists

Clicking a bar segment, number, or total within a report opens the Student List, which displays each of the students along with an overview of the assessment data used to generate the report.
