

# Prepare for 2024–25! Get everything you need to teach Amplify Science!

Amplify Science brings three-dimensional learning to life in a robust, multimodal program that meets the demands of the New York Science Learning Standards, as well as numerous ELA and math standards. Educators who use Amplify Science have access to a comprehensive curriculum, complete with detailed lesson plans, embedded assessments, hands-on activities and materials, digital simulations, and comprehensive teacher support resources.

## **New for 2024–25! Easy access to all New York City companion lessons (grades 6–8)**

Companion lessons will be available directly in the platform under digital resources. Once you click on the companion lesson link, it will take you directly to the Companion lesson PDF, allowing for easier access to critical lessons in the curriculum.
